THE CREATIVE

MANIFESTO

creative cables

1. WE DON'T SELL LAMPS: WE CREATE THEM WITH YOU

We think every lamp should be unique: a true reflection of the taste and creativity of those who buy them and enjoy them in their everyday setting.

2. OUR GOAL IS TO BRING LIGHT WHEREVER YOU WANT

We come up with design systems that allow you to arrange your light, moving it where you most need it.

3. ASSEMBLED OR DIVIDED

Here you can find all the components you need to create your own lamp (don't worry, we have plenty of tips to help guide you through it!) or to customize an already assembled lamp with many different finishings (and in this case all you'll need to do is switch it on!)

4. BORN DIGITAL BUT WE PREFER FACE-TO-FACE

We were born on the web and, contrary to what usually happens, we subsequently opened our stores across the world: we couldn't wait to meet our Clients in person and share a unique and special bond with them!

5. WE ARE PEOPLE OF THE WORLD BUT WE LOVE OUR TERRITORY

We have online and physical stores in more than 25 countries, but we also love our origins and their artisanal traditions. This is why we entrust expert italian artisans with the production of our fabrics, ceramics and wood components.

6. WE LOVE PEOPLE THAT WORK WITH LIGHT

This is why we created exclusive services for architects, electricians, interior designers and other professionals.

7. STURDY AND SUSTAINABLE

To us sustainability means durability in time. That's why you will be able to exchange every part of your lamp by substituting them when necessary.

8. IN CASE YOU COULDN'T TELL, WE'RE ITALIAN

Even if we picked out an english name we are still italian and proud, and we're hoping some elements of our origins shine through.

9. WE BELIEVE IN QUALITY AND ACCESSIBLE DESIGN

For a reasonable and accessible price we try to offer beauty and the possibility of having fun by creating dazzling ideas.

10. THE CONTENT, NOT THE CONTAINER

We prefer to focus on the content rather than on the container: a simple packaging to highlight our colourful products! Custom is our standard

SYSTEMS

Creative-Cables systems are coherent lighting solutions designed to provide you with an answer that fits the style and functional needs you are working on. Our systems address both indoor and outdoor contexts as you simply have to lay the puzzle using the components at your disposal. As is the Creative-Cables trademark, you can of course customize, request different finishes and colours when working with our system solutions, to make sure that the system fits #YourLightStyle.

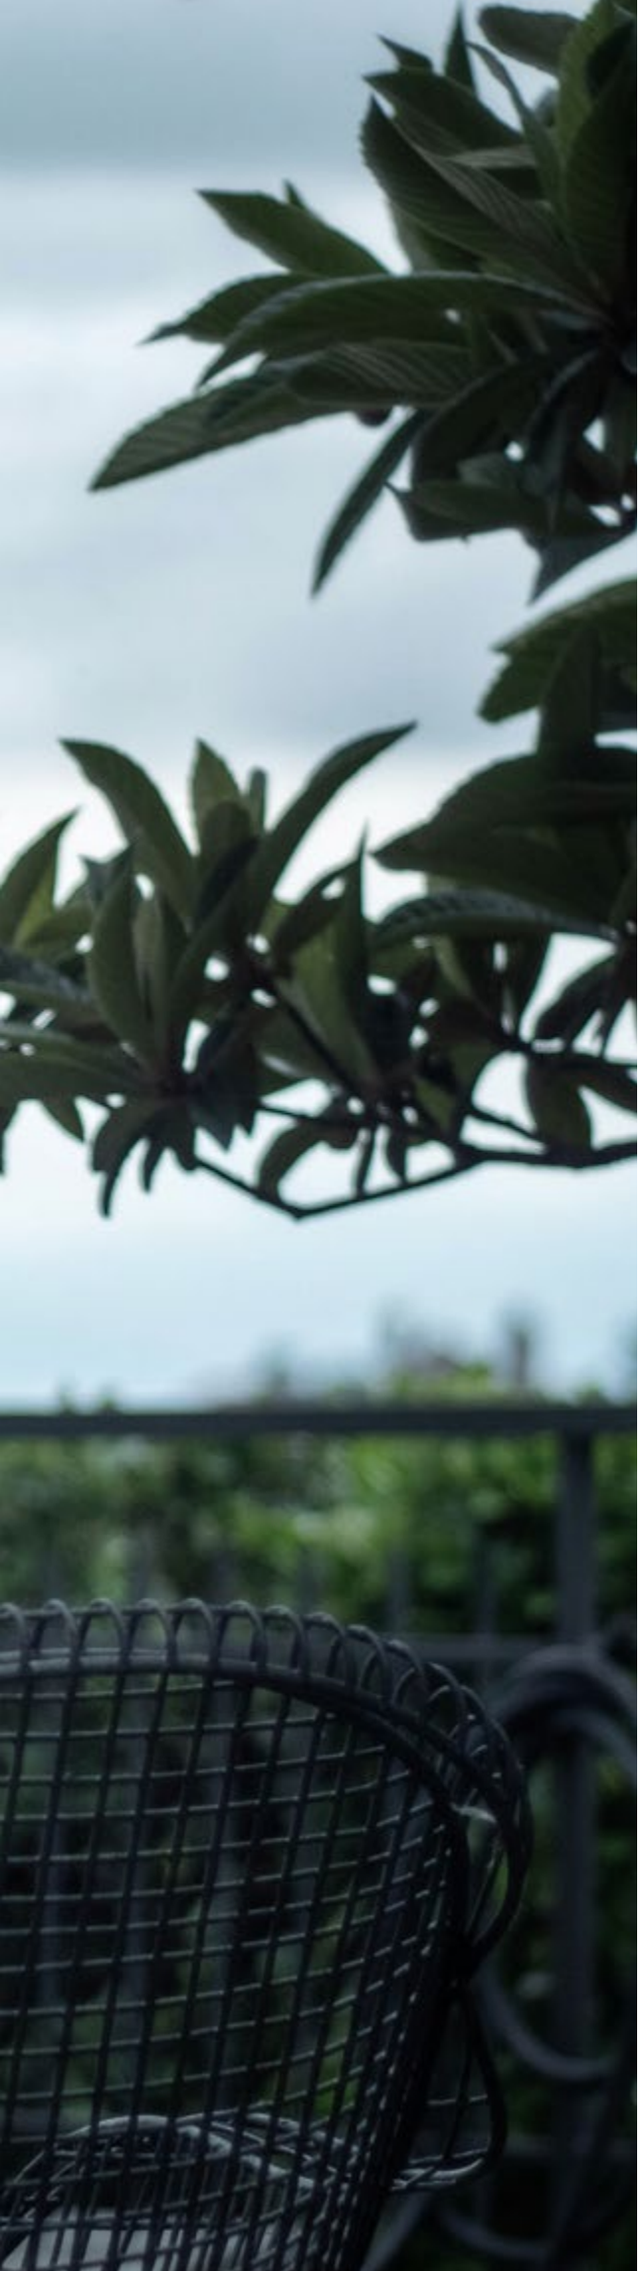
EIVA
The outdoor system by Creative-Cables



EIVA SYSTEM
OUTDOOR

EIVA: the first do-it-yourself
IP65 Outdoor lighting system.

Water has never been a natural environment for light.
Until today.

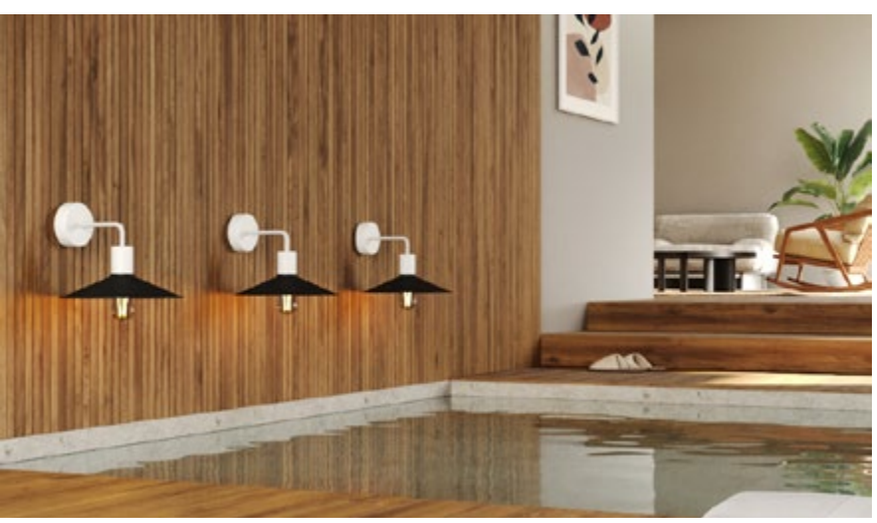
Create your own water, rain and storm resistant lamp
with guaranteed Creative-Cables quality.

Patented Solution
MADE IN ITALY

EIVA SYSTEM

IP65: WATER AND RAIN RESISTANT

The heart of EIVA is the world's first wired E27 IP65 lamp holder: thanks to the insulating gel inside and a watertight membrane on the bulb, this lamp holder withstands rain and storms in complete safety.



**Designed for outdoor,
perfect for indoor.**

The EIVA lighting system is designed, engineered and patented by Creative-Cables and will allow you to illuminate outdoor spaces like gardens, patios and terraces but also as lighting solution for the bathroom, without having to worry about water splashes.

EIVA COMPONENTS

Configure your EIVA system by choosing the components that best suit your needs. IP65 single entry lamp holders can be purchased naked or with a soft touch silicone cover: perfect for single pendants or wall lamps. The multiple entry IP65 components (Eiva 2 and Eiva T) allow to create solutions with several light sources, distributed over a wide range and connected by an EIVA cable. The IP55 soft-touch silicone ceiling rose and the IP44 plug will allow you to complete your lighting using a wall connection or a socket.

LUMET SYSTEM

OUTDOOR

Create a unique atmosphere with the LUMET SYSTEM.

Light up your outdoor spaces for a special evening with the colorful Creative-Cables string light systems.

Patented Solution
MADE IN ITALY

LUMET SYSTEM

1

Ready-to-use lights

The Lumet System allows you to create outdoor lighting that is easy to install and dismantle. It is perfect for evenings spent outdoors with your friends, at home or on holiday!

2

Tailor-made

The IP44 protection classification means that you can install the Lumet System string lights in your outdoor spaces, even during the most humid evenings, and quickly take them down before each downpour.

3

Moisture-protection

The IP44 protection classification means that you can install the Lumet System string lights in your outdoor spaces, even during the most humid evenings, and quickly take them down before each downpour.

FILÈ SYSTEM

INDOOR

Decorate and light up your walls with the FILÈ SYSTEM.

Filè is the Creative-Cables system designed to create wonderful wall or ceiling lighting solutions!

Rectangular section cables covered in magnificent colours, high-quality wooden components Made in Italy: with Filè you can build a customized and 100% Creative lighting solution!

Patented Solution
MADE IN ITALY

FILÈ SYSTEM

1

Easy

Create an impressive lighting installation in just a few steps. Filé lets you forget about the difficulty and effort of wiring up a lamp holder!

2

Tailor-made

The rectangular section cable features an IP44 protection classification, meaning that you can also light up bathrooms and kitchens creatively using Filè!

3

Moisture-protection

Create designs on the walls and ceilings using electrical cables available in more than 20 colors and Made in Italy wooden components. Create effective lighting, tailored to your lighting and design requirements.

S-14 SYSTEM

INDOOR

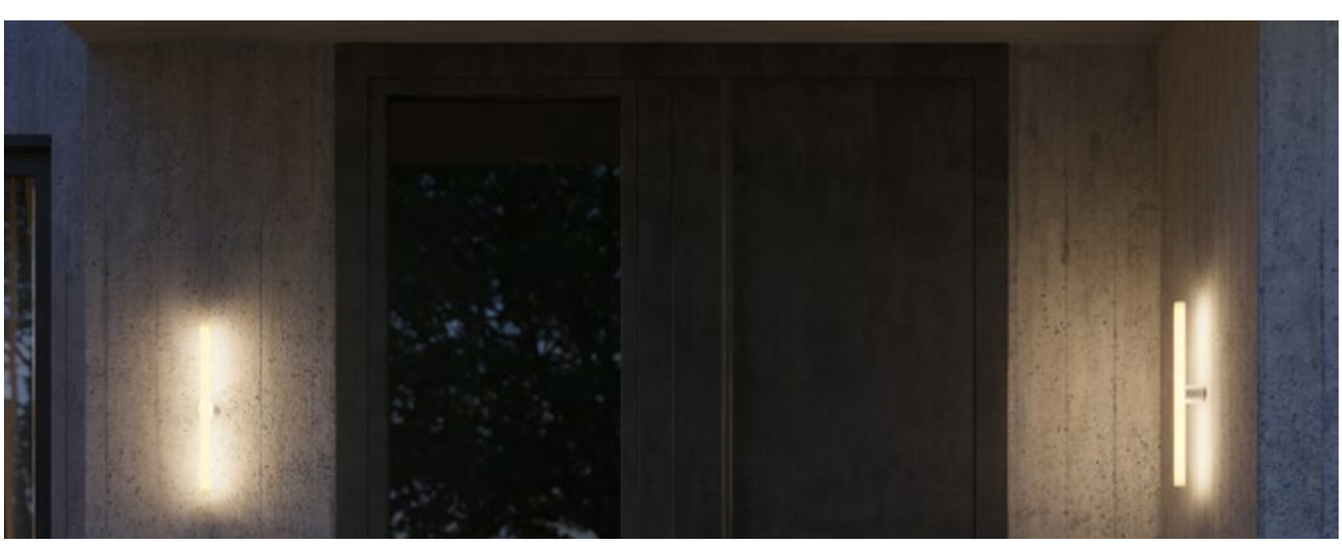
Create unique lighting solutions with S14 SYSTEM.

S14 is the Creative-Cables system that allows anyone to create spectacular lighting solutions using a piece of lighting history: tube bulbs.

S-14 SYSTEM

SYSTEMS FOR LINEAR S14D LED BULBS

S14 linear LED lamps are perfect for wall installation, for creating wall combinations or as bathroom and outdoor lamps. Thanks to Creative-Cables' exclusive solutions, they can also be used as pendant lamps, increasing their possibilities of use and creating original and creative compositions.
Available lampholders are esse14 and Syntax® .



S-14 WALL OR CEILING LAMPHOLDERS

Curved, small and design-oriented, you can give shape to your creations without worrying about their taking up too much space. It does not require a ceiling rose and can be attached directly to the wall. An exclusive Creative-Cables creation, designed to resist humidity thanks to its IP44 certification when combined with 30 or 50 cm linear LED bulbs.

SYNTAX LAMPHOLDERS FOR PENDANT LIGHTING

The linear lamps with S14d socket are not restricted to basic wall or ceiling installation, but can also be presented in all their glory in suspension, or with a swivel joint, and may be combined in different compositions with never-before-seen scenographic effects, owing to the Syntax system.

SYNTAX_S14D

SS14DTERP1NE

SYNTAX LAMPHOLDERS FOR PENDANT LIGHTING

The kit includes a Syntax lamp holder with S14d fitting and a cover, an accessory that allows you to cover your lamp holder whilst hiding the cable clamp. This metal lamp holder cover works as a sheathing for the S14d lamp holder and is available in different finishes - choose the one that suits your style. The Gold finish is a perfect match to the golden LED linear bulbs, whereas the Silver finish suits the Smoky Grey linear bulbs, and yet again the white version is excellent combined with the opaline linear bulbs for a total white effect.

KBXS14DOTS

KBXS14DTIS

KBXS14DRAS

S-14 BULBS

The S14d lamp holders can be matched with a wide range of linear bulbs. Transparent, gold, smoky grey and opal finishes are available in 3 different lengths: small, medium and large. All the bulbs are dimmable.

S-14 LAMPS

The elegance and design of these lamps create a sophisticated atmosphere. The pendant version is ideal for minimal yet functional lighting along corridors or in large open spaces. Alternatively, wall lamps provide functional and decorative illumination, such as above a mirror or picture. S14 Lamps can be purchased with or without a bulb.

CREATIVE-TUBES SYSTEM
INDOOR

Create your own personalized,
visible wiring installation with TUBES.

Tubes are the Creative-Cables system that combines the beauty of the fabric covering with the practicality of a true surface wall system.

The Tubes system eliminates the need for ugly plastic electrical conduits or rigid metal pipework.

Patented Solution
MADE IN ITALY

CREATIVE-TUBES SYSTEM

1

Flexible

Creative-Tube combines the fabric-covered sheath with two metal filaments, allowing the conduit to maintain its shape when bent.
It adapts to suit your needs.

2

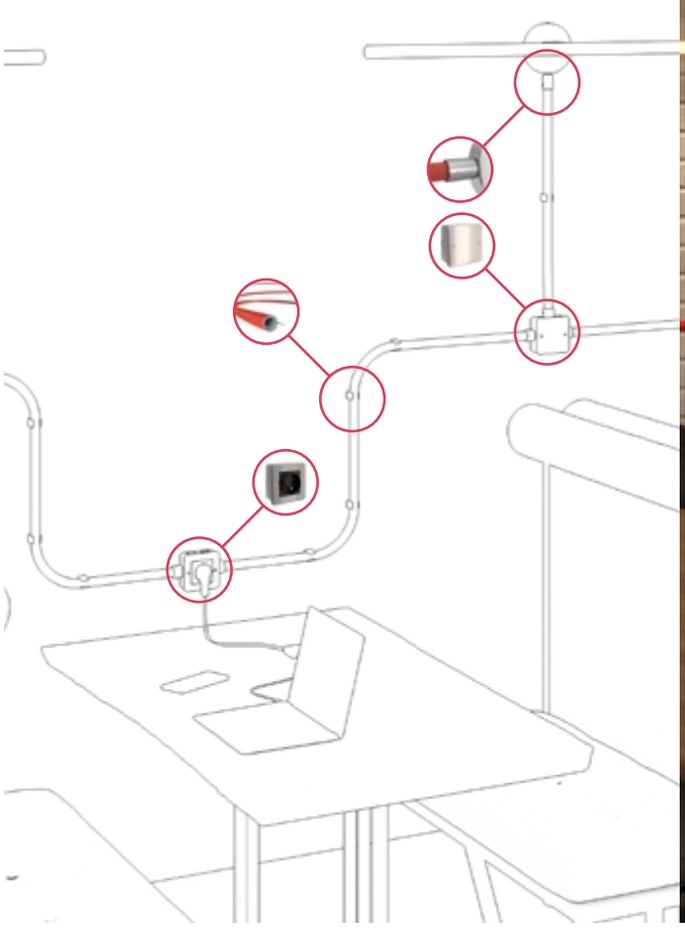
Tailor-made

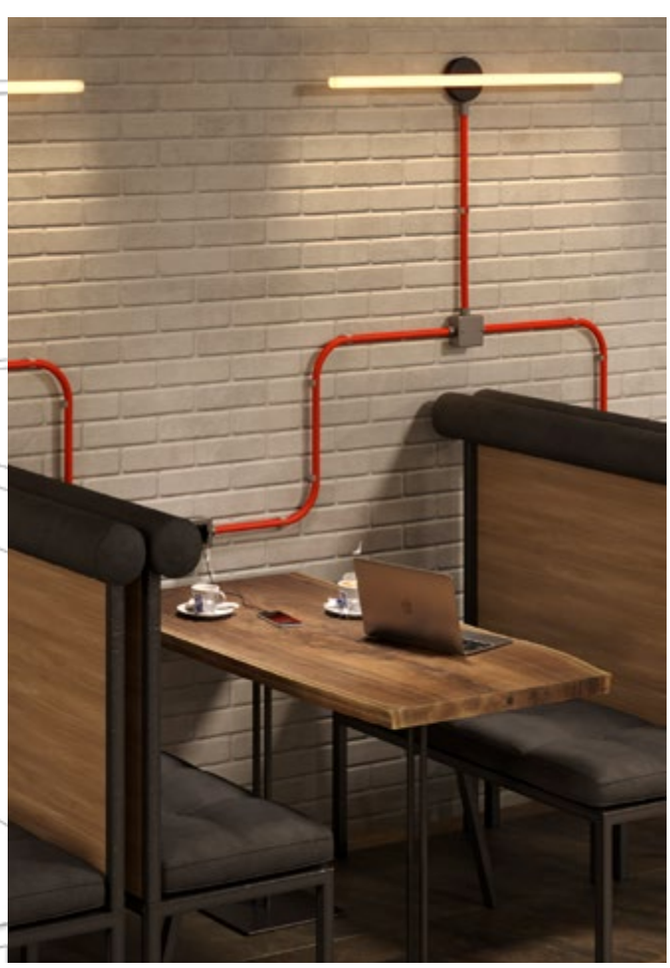
Create a beautiful and functional bespoke visible system that takes into account your daily needs and the style of your rooms.

3

Creative and safe

You have the freedom to exhibit your electrical system.Create a wall design that is a functional light source without sacrificing safety; the system adheres to the highest standards.





CREATIVE-TUBE 20MM

Specifications:

Their internal material complies with CEI-EN 61386-1 + EN 61386-22 Classification 3321.
Classification No: 3321
Crushing Resistance: >750N on 5cm at 20°C
Shock Resistance: (-15°C) after applying 2 kg mass hammer
Operating Temperature: -5°C to +60°C
Resistance to flame propagation: self-extinguishing V0
Dielectric strength: <2000V A 50Hz
Insulation resistance: >100 mega ohm
Diameter: 20mm
The tube is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 30 meters in length.

FLEX SYSTEM

INDOOR

When flexibility takes shape.

Flex System is ideal to create single and multi-fall pendant or wall lamps inspired by the most imaginative ideas, yours!

Be creative and design your own lighting system.

FLEX SYSTEM

1

3 Lengths

No matter your lighting needs, we're sure you can fulfil them with Creative Flex.

2

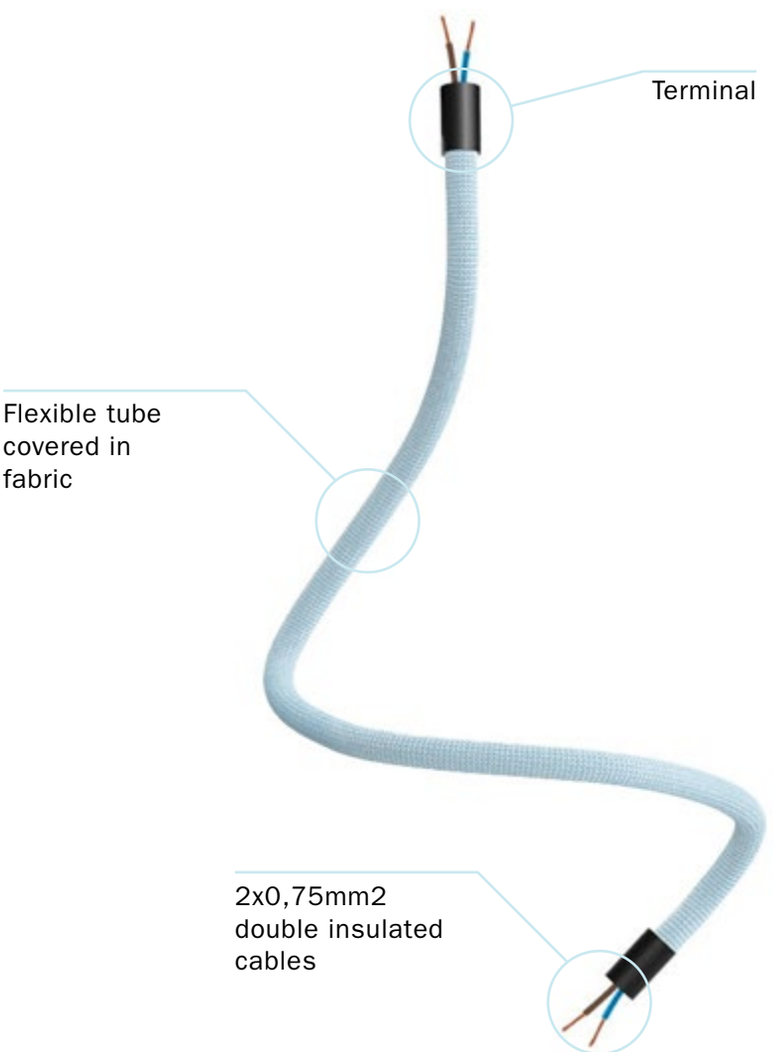
20 Fabrics

The 20 coverings available are designed to suit any environment. We're sure you'll find one that suits your style - we love creative!

3

5 Terminals

To complete your Creative Flex, we have conceived 5 finishes for the metal terminal to match all 15 available coverings according to your taste.



CREATIVE FLEX

The Flex is a flexible extension tube covered in fabric that thanks to its remarkable flexibility, allows to create customised lighting systems for any space. It is available in 3 lengths - 30 cm, 60 cm, 90 cm - and in 15 different colours.

CAGE

INDOOR/OUTDOOR

New approaches to illumination

Looking for a modular chandelier in true Creative-Cables style? Cage is the answer to your every need thanks to its clean shape that encloses the cables to create dazzling and unique suspension lamps.

We like to think of them as floating sculptures!

Designed by Marcello Zilliani

CAGE

Round or Squared? They are available in 3 different finishes: black or white in recycled plastic and transparent in polycarbonate. Use a single Cage or try multiple combinations to put together the different forms that make up your own personal “chandelier creation”. There is no limit besides your imagination and the courage to act on it! Use a single Cage or try multiple combinations to put together the different forms that make up your own personal “chandelier creation”. CHANGE SHAPE

If you get tired of your current display, switch up your lamp’s appearance each and every time you want to by simply adding new Cages to your current one or by adjusting its placement. Fascinating and unique shapes created through our cables are what really makes this lamp a true floating art piece.

SPOSTALUCE SYSTEM
INDOOR

Create your own personalized, visible wiring installation with TUBES.

Tubes are the Creative-Cables system that combines the beauty of the fabric covering with the practicality of a true surface wall system.

The Tubes system eliminates the need for ugly plastic electrical conduits or rigid metal pipework.

SPOSTALUCE SYSTEM

1

Anywhere you want

It doesn't matter where the connection to the mains supply is located; all you need to do is connect the cables and then position Spostaluce anywhere on the wall.

2

Customisable

Create original and contemporary interior lighting designs on the walls and ceilings with the round and twisted electric cables and metal finishes of Spostaluce.

3

Choose your style

Minimal, vintage or industrial: each of the metal finishes available lets you create your preferred home decor style.

SPOSTALUCE LAMPS

Spostaluce are the lights points that allow you to take the light source wherever you want, no longer having the issue of where the connection is to your electrical circuit. All you'll have to do is connect the Spostaluce lamp plug to the closest electrical socket and attach the lamp to the wall or ceiling of your room. It doesn't get any easier than that! Available in many versions and finishes, with Spostaluce it will possible to create light installations both on the ceiling and on the wall.

ROSE-ONE SYSTEM
INDOOR

The first versatile and easily customizable ceiling rose. Create unique multi-pendant lamps with ROSE-ONE ceiling roses.

Rose-One System is a Creative-Cables exclusive solution allowing everyone to create wonderful multi-pendant lamps personalized on each one's needs.

ROSE-ONE SYSTEM

1

Invest with limited stock

Keep your stock limited without reducing the number of products you can sell. You can easily create your product combining the Rose-One bases with covers either already drilled or to be drilled.

2

Flexible and customizable solution

With Rose-One you will have the possibility to customize the product independently, defining the number and position of the pendant holes selected by your customer.

3

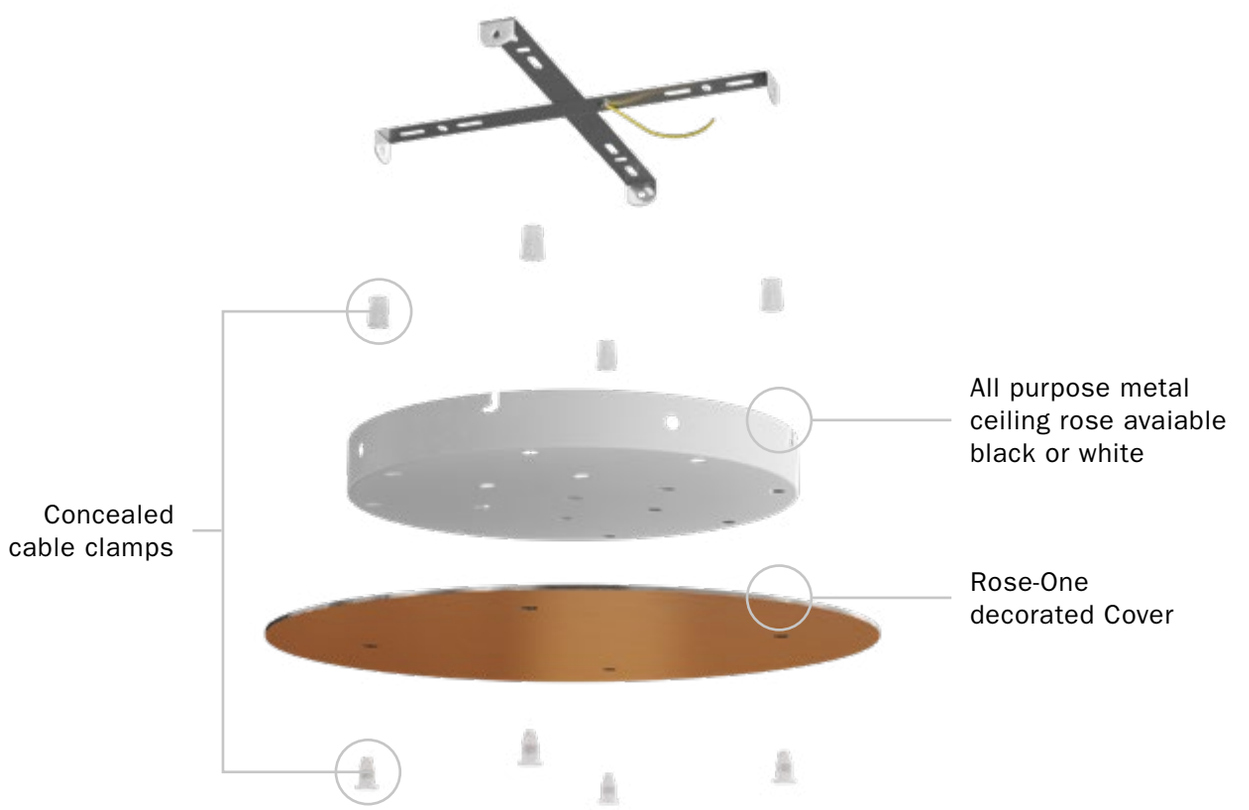
Wide choice of shapes, colors and finishes

You can choose from many combinations, which differ in shape, size, color or finish. If the available options are not enough you can request a custom finish!

4

Patented solution

Rose-One System is a revolutionary ceiling rose system allowing anyone creating and customizing single or multiple pendant lamps to personalize their space.



SHAPES: ROUND, SQUARE OR RECTANGULAR?

With the Rose-One system, you can choose from a variety of shapes and sizes to find the rose that's right for you.

COLORS AND FINISHES: MATTE, TEXTURED OR METALLIC?

Your Rose-One can be understated and elegant or informal and playful; take a look at our colorful decorations!

NUMBER OF PENDANTS: HOW MANY?

Our catalogue has a range of Rose-One options from 1 up to 15 holes to choose from, to make an installation with many pendants! In addition, custom roses can be made with the number and geometry of holes that your customer prefers.

BASE HOLES: WE HAVE 4 OPTIONS

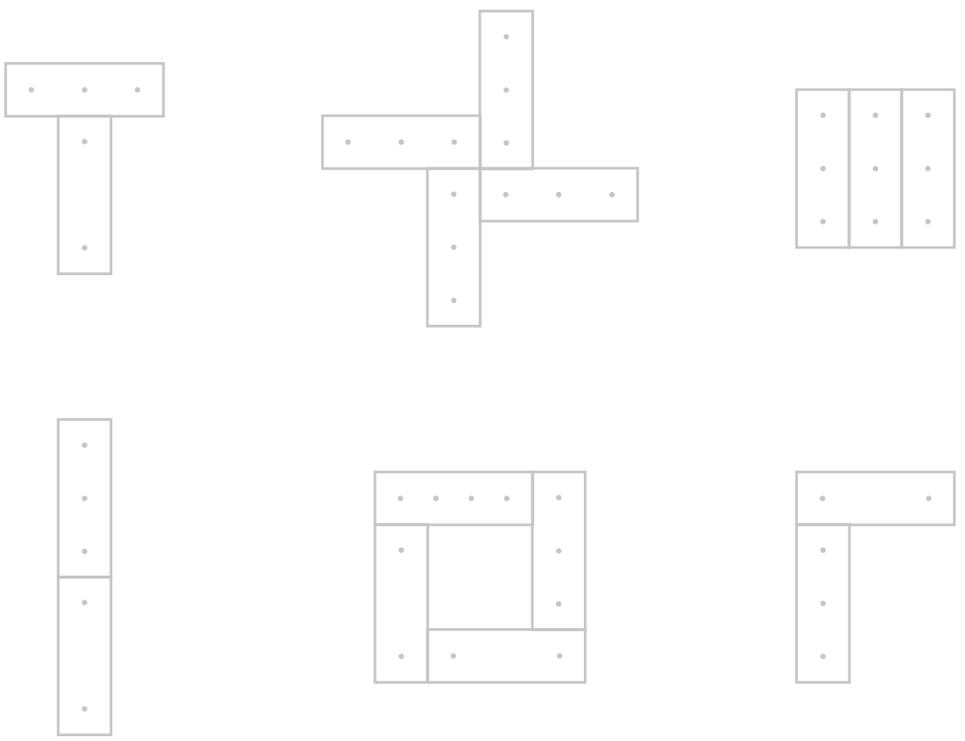
The Rose-One by Creative Cables is a Made in Italy patented solution that is characterized by a base with four entry/exit holes. How can you use them?

- Create up to 4 side drops in addition to those present in the cover of the Rose-One.
- Connect multiple Rose-Ones together to illuminate areas of the room away from possible points of power sources.
- If there is no ceiling light you can use the side holes to connect the Rose-One to a nearby electrical outlet.

If the 4 holes of the base are not used, they can be closed with the caps provided in the package.

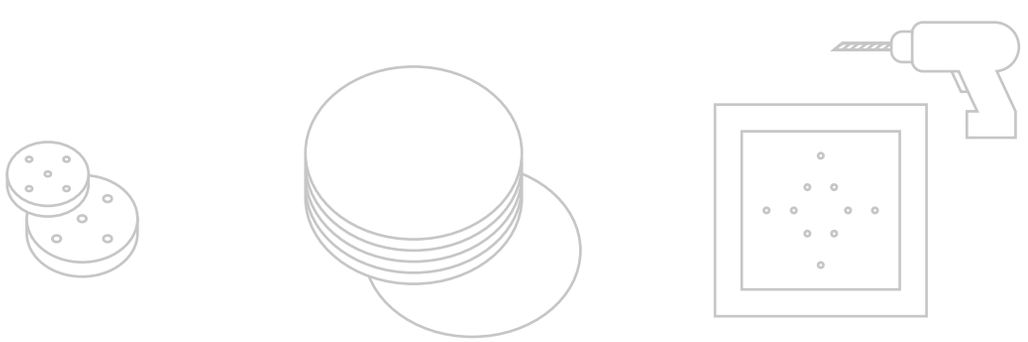
MULTIPLE ARRANGEMENTS

The Rose-One rectangular or square, thanks to the many finishes available allows you to create multiple impressive suspensions in relation with the style of the rooms you are furnishing.
The side holes allow you to easily connect several Rose-One to each other, starting from a single ceiling light point. They can be easily combined with each other to allow you to create different arrangements and geometric designs adaptable to your needs: lighting a living room, a table or a long bar counter.



ROSE-ONE: THE CUSTOMIZABLE CEILING ROSE

With our template you can drill any round or square Rose-One cover in your shop with a common drill.
The holes are numbered to make drilling easier: if you want, you can use our legend to reproduce the most classic drilling patterns (included in every pack).
Unlike a classic range of rosettes, it will not be necessary to stock an infinite number of models, different in the number of holes and finishes: depending on customers requirements, you can create the desired product by combining the universal base to the dibond, already drilled or to be drilled with the appropriate template jig.



ROSE-ONE **KITS**

For all our customers who like to create and design, being able to choose your ceiling rose for single or multi pendant lights just got a whole lot easier. Rose-One system comes in a wide variety of colors and design options. Look out for more options to come.

HADID

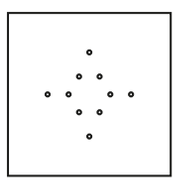
WHAT YOU NEED TO COMPOSE YOUR ROSE-ONE CEILING ROSE

You'll be able to build your Rose-One ceiling rose in 3 simple steps. One - choose pre-drilled or undrilled cover's shape, size and Decorazione. Two - choose one of the 3 metal ceiling roses: Rotondo small for smaller covers, Rotondo big for the bigger ones and rectangular for rectangular covers. All available in white or black.
Three - complete your ceiling rose with transparent hidden cable clamps. Easy not?
And you can also optimize your warehouse's stock! How? Depending on your customers' requirements, you can easily create your product combining the Rose-One bases with covers either already drilled or to be drilled.
A lot of choices for your Clients with a minimum stock, what do you need more?

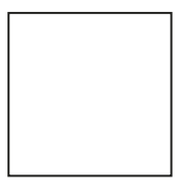
1

Cover

Choose the shape, the size and the decoration. You can either buy it:



PREDRILLED

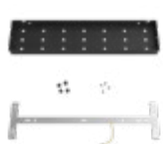


UNDRILLED

2

Base metal ceiling rose

Depending on the cover you chose, you will need to choose the correct one from the 3 available metal ceiling roses: round small for smaller covers, round big for bigger covers or rectangular (either white or black) for rectangular covers.



3

Cable clamps

Add the transparent hidden cable clamps to your cart in order to complete your ceiling rose.

4

Warning!

If you buy undrilled covers you will also need to buy a template inorder to ensure that you drill the holes correctly.

1. PRE-DRILLED COVERS

The Rose-One pre-drilled come in three different shapes: square, round and rectangular. And the squared and round versions are available in two different diameters, 200 and 400mm. Covers are pre-drilled with 1 to 15 holes depending on their dimension following different kind of punching schemes. Covers come in different designs and colors and are made in aluminum or dibond. Complete the Rose-One ceiling rose with specific accessories: a metal ceiling rose and cable clamps.

MAGNETICO® SYSTEM
INDOOR

Configure and reconfigure your lamps just as you like with MAGNETICO® .

Magnetico® is the lamp system that allows you to light your indoor spaces with complete flexibility.

MAGNETICO® SYSTEM

1

Mobile

The Magnetico® system is based on an E27 lamp holder that can be installed on any flat metal surface, allowing you to easily move the lamp any time you need.

2

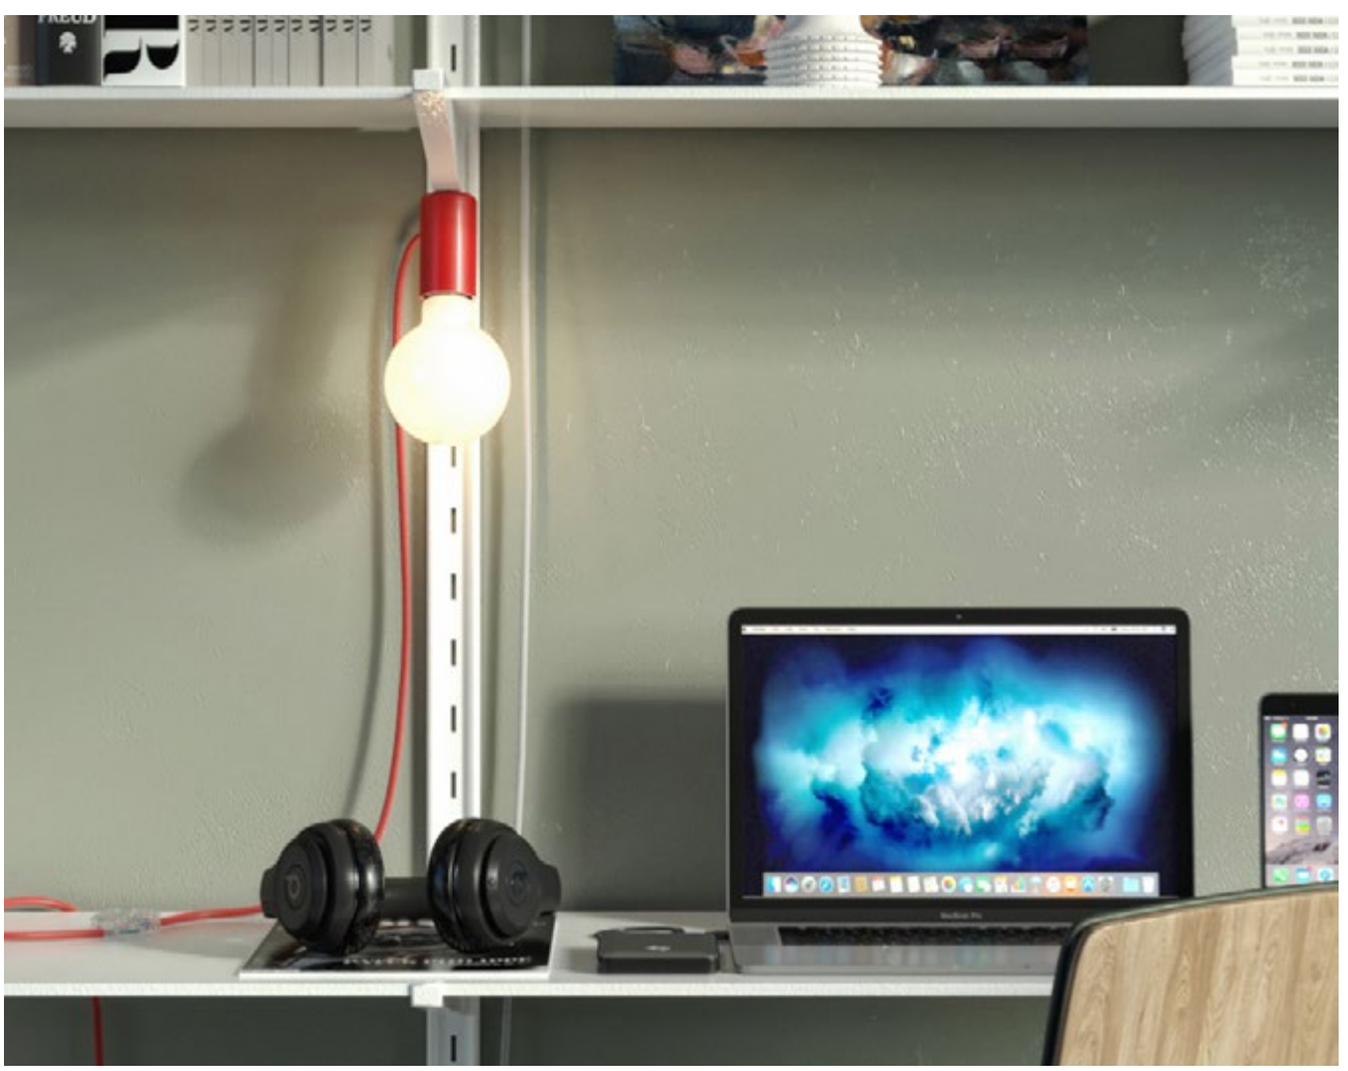
Colourful

Magnetico® products are available in an extensive range of colours. From the brightest to the more neutral shades, there's a colour to suit everyone's style!

3

Flexible

Direct the light where it is needed by simply repositioning the lamp holder. Magnetico® adapts to your changing needs, and the possibilities are endless!



MAGNETICO® PLUG

It is a magnetic lamp holder able to adhere to any flat metal surface, no matter whether vertical or horizontal! Magnetico® -Plug is available in 9 different finishes and is equipped with a coloured 3 meter cable, switch, two-pole plug and E27 lampoholder.

SMART HOME SYSTEM
INDOOR

Your Smart Light Style.

The ideal solution for those who live in a smart home or for those who want to start taking their first steps in home automation making their home “intelligent”.

Have fun activating your chandeliers with a simple voice command, turn on the lights of your home automatically at sunset, create custom scenes and atmospheres by inserting your lamp in a group of lights.

Make any wall or ceiling lamp in your home smart with Creative-Cables!

SMART HOME SYSTEM

Compatible with Amazon Alexa and Google Home

All the Creative-Cables smart ceiling roses are equipped with an ON/OFF switch already wired and ready to be easily connected to your electrical system, they can be controlled through the Smart Life app or connected to a voice assistant (they are compatible with Amazon Alexa and Google Home) and help you create lighting groups for custom scenes and atmospheres.

SMART CEILING ROSES

A smart ceiling rose is the “connected” version of a lighting rose: it can be used to create remotely controllable pendant, wall or ceiling lamps using an App or voice assistants. Choose the size of the ceiling rose (classic or XXL), the number of holes you need to create your lamp (up to 14 pendants!) and the finish that best matches your interior design style and have fun creating your own connected lamp!

THE ORIGINAL CREATIVE-CABLES

Some call them colourful textile cables, others fabric covered cables, whilst others still simply call them coloured cables.

But really, for over 10 years their real name has been Creative-Cables.

What makes Creative-Cables products so special?

Made in Italy

Rom the industrial process behind the PVC cables to the fine work of tailoring that goes into the textile linings, every single Creative-Cables component is Made in Italy. Including the design, obviously!

Quality

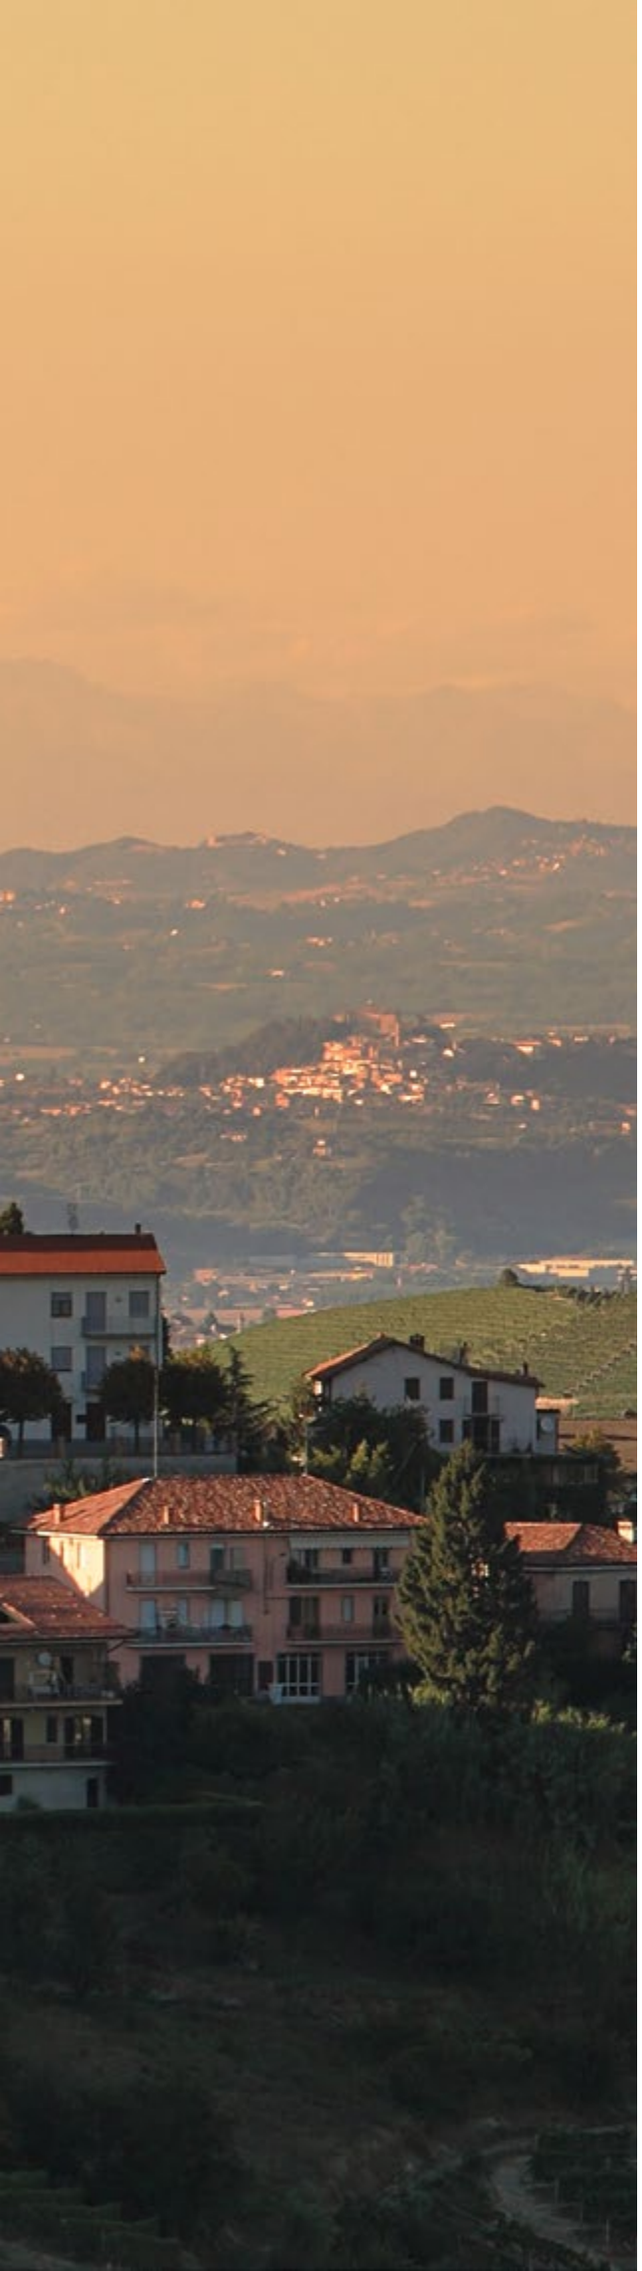
First and foremost!. Our cable specifications, fully compliant with the strict HAR and UL regulations, are constantly monitored and consistently kept up to date. The fabric used for the finish comes in one-of-a-kind colour hues from the best Italian suppliers.

Flexibility

Our PVC cable has been produced based on a special formula that maximises flexibility and prevents bulges. The complete cable is Creative-Cables guaranteed from the surface to the core of the product.

Our selection

Which boasts the vastest colour catalogue in the world. Different fabrics, from polyester to linen, cotton to jute, combined with various textures plus exclusive and patented designs. On top of all of this we offer stunning solutions like the Marlene line, soft and light like a feather.



Three generations of textile excellence put to the service of producing **the best covered cable in the world.**

The **history of Creative-Cables** traces its roots back to the textile industry of the **Chieri** area in Piedmont, Italy, known for the renowned production of its "**textile trim shops**" since the early 1900s.

At that time, a fabric generically called "**mesh curtain**" was created with four intertwined threads and many holes, and was **produced with crochet machines** by the German company "Key", the holder of the world patent.

During the Second World War, Key was literally destroyed: but the resilience and drive of the people of Chieri, along with a pinch of luck and coincidence supported by a market demand did the rest to restore the trade.

It is **in this region** that **we manufacture our electrical fabric cables**, using the same technology underlying the textile trim production, leveraging a pricless **cultural heritage**.

LIGHTING CABLES

More than 150 colours, patterns, textures and surface effects for different uses, tastes or designs.
Choose among the offered styles (round, twisted, nautical, large section or flat) to select what best suits your lighting project: they are incredibly flexible, because we use high quality PVC to avoid bulges or wrinkles.
All of our lighting cables are IMQ-HAR certified, the highest quality standard in Europe.
Every single product is designed and Made in Italy.

ROUND SILK-EFFECT CABLES

Silk-effect cables have a bright solid finish, which is elegant yet informal. Shiny as silk, they can bring colour wherever needed.

Specifications:

H03VV-F 300/300VAC 2x0,75mm2 or 3x0,75mm2
Flex Round IMQ-HAR Cable DOUBLE INSULATION under textile braid.
Standard reference: EN 50525-2-11 Low Voltage European Directive N° 2014/35/EU,

IMQ-HAR approval No. A0643, DoP No. 0008.

Diameter: 6,2mm 2x0,75mm2 or 6,6mm 3x0,75mm2
The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 50 meters in length.
UL listed 3 cores AWG18 cable is also available

VERTIGO CABLES

These cables are braided with a peculiar pattern that cannot be found in other cables of our assortment. Some of these cables are made out of natural fibres such as cotton, jute or linen; others are called “HD” because of their vivid and highly defined colours.

Specifications:

H03VV-F 300/300VAC 2x0,75mm2 or 3x0,75mm2
Flex Round IMQ-HAR Cable DOUBLE INSULATION under textile braid
Standard reference: EN 50525-2-11, Low Voltage European Directive No. 2014/35/EU

IMQ-HAR approval No. A0643, DoP No. 0008

Diameter: 6,2mm 2x0,75mm2 or 6.6mm 3x0,75mm2. Technology and design of Vertigo cables registered by Elexa Cavi. The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 50 meters in length.

Vertigo cables are exclusively distributed worldwide by Creative-Cables.

OUTDOOR EIVA CABLES

Our outdoor cables are also compatible with the EIVA system - Creative-Cables' water and rainproof outdoor lighting system.

Specifications:

H05RN-F 300/500VAC 2x1mm2
Rubber sheathed flexible round IMQ-HAR Cable DOUBLE INSULATION under textile braid.
Standard reference: EN 50525-2-11, Low Voltage European Directive No. 2014/35/EU,
Products meeting the safety objectives of Low Voltage Directive 2014/35/EU (Annex I).

IMQ-HAR certificate No. CA01.00683, DoP No. 0015.

Diameter: 6,8mm 2x0,75mm2 or 7,8mm 3x0,75mm2.
The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 50 meters in length.

EXTRA LOW VOLTAGE CABLES

Our large section (3x1,50mm²) cables will help you when you require some extra power: multi sockets, power leads, wall installations, extension cables. Choose among the offered styles (round, twisted) for what best serves your purpose: they are incredibly flexible, because we use high quality PVC to avoid bulges or wrinkles. All of our large section cables are IMQ-HAR certified, the highest quality standard in Europe. Every single product is designed and Made in Italy.

Two-pin Extra Low Voltage electrical cable in white extra-flexible silicone covered in fabric. The cable is 3.5 mm in diameter (approximately 4 mm covered) and has 2 copper conductors covered in black and red silicone rubber with a cross-section of 0.35 mm².

Caution! Do not use for mains voltage and halogen bulbs.

Specifications:

Flexible bipolar cable insulated with white silicone
External diameter 3.8 mm
2 copper conductors coated with black and red rubber section 0.35mm
Rated voltage 300/500 V
Test voltage 2kV
IEC EN 60228 Class 5
IEC EN 60754-1/2
The size and structure of the cable make it suitable for LED applications with a voltage of less than 48V.

LARGE SECTION CABLES

Our large section (3x1,50mm²) cables will help you when you require some extra power: multi sockets, power leads, wall installations, extension cables. Choose among the offered styles (round, twisted) for what best serves your purpose: they are incredibly flexible, because we use high quality PVC to avoid bulges or wrinkles. All of our large section cables are IMQ-HAR certified, the highest quality standard in Europe. Every single product is designed and Made in Italy.

LARGE ROUND SILK-EFFECT CABLES

Silk-effect cables have a bright solid finish, which is elegant yet informal.
Shiny as silk, they can bring colour wherever needed.

Specifications:

H05VV-F 300/500VAC 3x1,50mm2
Flex Round IMQ-HAR Cable DOUBLE INSULATION under textile braid.
Standard reference: EN 50525-2-51,

IMQ-HAR approval No. A0644, DoP No. 0019.

Diameter: 8,5mm.
The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 50 meters in length.

LARGE TWISTED SILK-EFFECT CABLES

Thanks to their special twisted texture, they look like braids: but believe us, they are real electric cables! Silk-effect cables have a bright solid finish, which is elegant yet informal.

Specifications:

FRRTX 300/300Vac 3x1mm2
Flex Twisted Visible Spiral Cable DOUBLE INSULATION (additional transparent sheath), braided woven cloth textile sleeve.
Standard reference: Low Voltage European Directive No. 2014/35/EU. Diameter: 9mm.
The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 50 meters in length.

ROPE CABLES

Covered with soft flock and raw jute in order to increase their diameters, cables can become a nautical rope with various thicknesses, colours and finishes. Inspired by the maritime style, they can create a totally unexpected suspension lamp. Every single product is designed and Made in Italy.

ROPE CABLES

The electrical cable becomes an electrical cord. The double covered electrical cables are covered with soft flocked and raw jute in order to reach a 16mm diameter.

Specifications:

FRRTX 300/300VAC 3x0,75mm2
Visible Spiral Flexible Cable which is double insulated, under the fabric braid.
Standard reference: Low Voltage European Directive No. 2014/35/EU
Diameter 16, 24 or 30mm.
The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 20 meters in length.

JUTE ROPE CABLES

This 2XL jute rope cable is featured by a double coating: the round electric cable covered in RN06 jute is enriched by the external coating of the braided jute cord thus reaching a 24mm external diameter. In this way you can treat the cord like any other cable.

Specifications:

H03VV-F 300/300VAC 2x0,75mm2
Flex Round IMQ-HAR Cable DOUBLE INSULATION under textile braid.
Standard reference: EN 50525-2-11, Low Voltage European Directive No. 2014/35/EU,

IMQ-HAR approval No. A0643, DoP No. 0008.

Cable diameter: 6,2mm 2x0,75mm2
Cover cable diameter: 24mm
The cable is sold by the meter, multiple orders will be delivered in one piece up to a maximum of 20 meters in length.

CEILING ROSES

A ceiling rose is an essential accessory for any design lamp. We offer a wide range of shapes, sizes and materials that will easily match any home style.

METAL CEILING ROSES

Among our best selling products, metal ceiling roses are available in 6 finishes. We also created the 2-3-4-5-7 hole versions to create multiple pendants: the side-holes roses can help design a totally customized wall or ceiling light fitting array.
Cable clamps can be made from plastic or metal and have different lengths, for an even more personalised solutions.

WOOD CEILING ROSES

We produce our wooden components in a small workshop in the province of Turin, our hometown. Here, the distinctive Italian craft- smanship, care and creativity of our designers transforms every wood log into beautiful components to illuminate your spaces.

We first designed them for our rope cables and offered in three basic colours, but they are so extremely versatile that we've created more options to give you more possibilities to style your interior as you prefer: natural wood can be painted or polished as desired. Each ceiling rose has a matching wooden lamp holder.

LAMP HOLDERS

COMPONENTS

A lamp holder is an essential accessory for any design lamp. We offer a wide range of shapes, sizes and materials that will easily match any living or working environment. Lamp Holders can match or contrast the ceiling roses: it’s up to you! All our lamp holders are IMQ-ENEC certified, the highest quality standard in Europe.

METAL LAMP HOLDERS

Our best-selling lamp holders, offered in six different finishes and different styles: metal, vintage, milled metal and double-ferrule. These last can be used with lampshades too! Each lamp holder has a matching metal ceiling rose.

P-LIGHT

P-Light is the unique E14 fitting lamp holder kit allowing you to create special lighting solutions with tubular light bulbs. You'll be able to create single or multiple pendant suspensions, perfect to illuminate rooms of different dimensions.
Combine up to 15 pendants by matching P-Light with our selection of decorated Rose-One System XXL ceiling roses or pair it with smaller roses to create the pendant lamp that best matches your interior.
From monochromatic shades up to brushed metal finishes, this little yet functional lamp holder kit is available in a variety of versions. This makes it suitable for different kinds of styles and interior design needs.

THERMOPLASTIC AND BAKELITE LAMP HOLDERS

We recommend bakelite lamp holders to all fans of the vintage look and plastic if you need a neutral colour or just a simple design. Available with E14 or E27 fitting, also for lampshades if needed. Some versions include a switch or a pull cord switch. All products are sold individually or in bulk boxes (100, 500 or 1000 pieces).

GU1d0

Written GU1d0 but pronounced GU1d0, it is a mini spotlight for directional LED light that allows you to illuminate with an approximately 260-lumen directional beam light the bedside table when reading, your child's homework (when he eventually decides to do it), in short, any point where you need a direct and circumscribed beam of light (of about 36°).

- KBMGU10VE
- KBMGU10SB
- KBMGU10MU

MINI GU10

GU1d0 is fitted with a MINI GU10 (or MR11) bulb, smaller than the normal GU10 bulb because of its 35 mm diameter and 46 mm height (socket included) that you can replace very easily by removing the silicone ring and rotating the bulb.

UFO UNCONVENTIONAL FLYING OBJECT

We selected 7 famous & promising emerging artists, we chose two of their most representative artworks and we lit them up: this is how the UFO collection - Unconventional Flying Objects was born. 7 double-faced wooden disks, processed and printed in Italy, ready to become a wall or a suspension lamp. Well, actually two: both sides of the disk are illustrated with different designs! Men and women, cactus and pineapples, mandala and azulejos, ice cream and cupcakes, and not to forget fish, dogs and flamingoes: A surprising variety of subjects and colours that create playful, romantic or surreal atmospheres.

2001

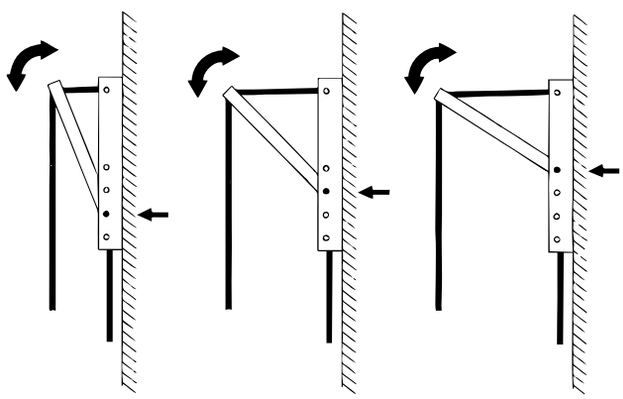
ACCESSORIES

Small things can make a difference:

among our accessories you will find all the special components which can make your lamp 100% unique.

PINOCCHIO

Pinocchio is Creative Cables adjustable wall mount for pendant lamp: it is made in Italy out of 100% beachtree wood and it can be polished or painted as desired.
The cable doesn’t go through any holes, it is wrapped around ridged wooden supports at each end: we strongly recommend you to use it with Snake, Snake for lampshades and SnakeBis.
Pinocchio makes it possible to hang a lamp onto a wall, even with a lampshade with a 50cm maximum diameter and a 3,365 kg maximum weight.

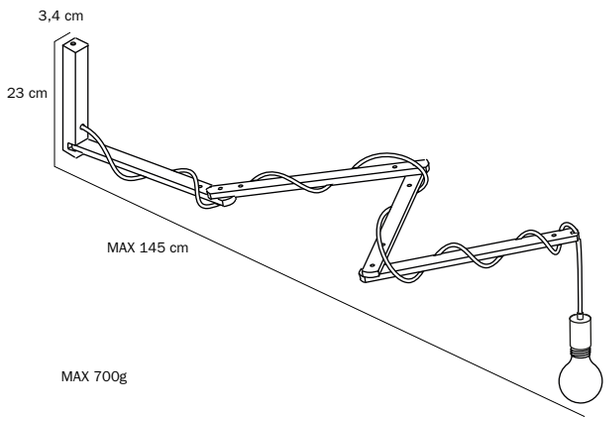


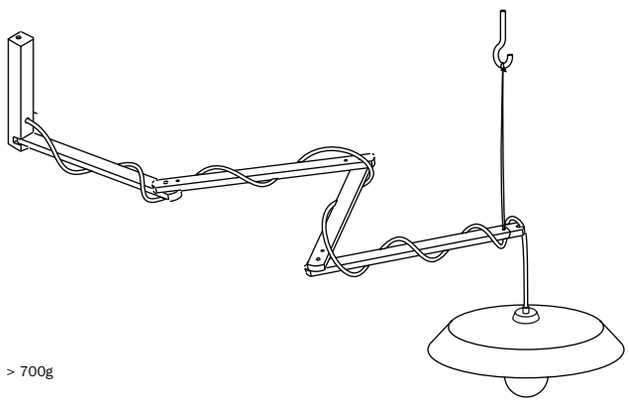
SSTLN02
SSTLN03
SSTLN01

Pinocchio can also be adjusted at three different heights.

PINOCCHIO XL

Pinocchio XL is not a simple wall bracket! It is Creative-Cables' solution to hang your lamp where you need it, allowing you to adjust the distance and the position of the light source from the wall. Thanks to the groove in the last rod, the cable remains locked in a safe position.
Made (in Italy!) from untreated beechwood, it can be impregnated or painted with the colour you want. And if you wish to add a lampshade, you can complete your installation with the ceiling brackets included in the kit.

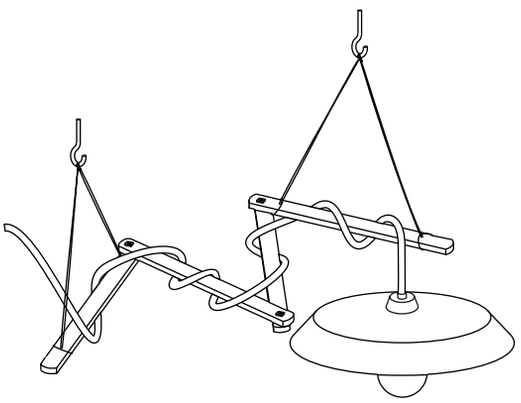


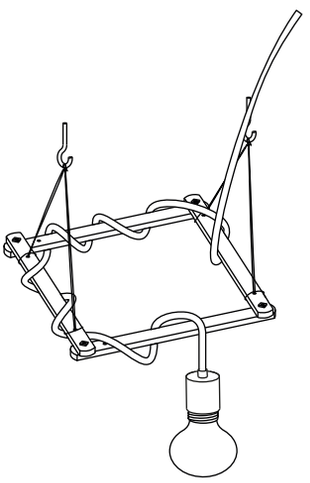


PINOCCHIOXL01

ZIGH-ZAGH

Zigh-Zagh is the ceiling support that allows you to create original pendant lamps, adapting both the shape and the length to every situation. Made in Italy, it can also be impregnated or painted with whichever colour you like.
Included in the kit is a thin transparent thread and the ceiling hooks needed to hang up your creation.





ZIGH-ZAGH01

LOUIS VUITTON
TOM FORD

ROLÈ

The Rolé wooden cable tie is an ideal wall fixture for creating beautiful wall lighting solutions in your indoor spaces. It can be used to decentralise the fall of a pendant lamp, or, thanks to the use of many cable ties in a sequence, by stretching the electric cable from one to the other, you can draw on your walls to design creative installations... and why not, you can use Rolé as a coat rack!
Rolé is made of 100% Italian-made wood and is available in two finishes: beechwood and wenge-effect ash wood.

ARCHET(TO)

Archet(To) is Creative-Cables patented and Made in Italy solution to create a suspended lamp that can be hung onto a wall, even with a lampshade with a 70cm maximum diameter and a 3,365 kg maximum weight: Archet(To) bends according to the weight it is bearing.
it has a light structure in transparent polycarbonate and can be used with Snake, Snake for lampshades and SnakeBis.

ARCHETTO
L 4cm, H 40cm

To mount Archet(To) on a wall lightpoint, you may want to use the designated bases in natural and made-in-Italy wood.
The bases can be polished or painted as desired.

COMPATIBLE 2XL ROPE CABLES (24MM)

TACHÉ, LIGHT BULB SUPPORT

Taché, in Piedmontese means “to attach” or “to fix”: our Taché is a support for light bulbs that allows you to transform a Globe 125 into an original table lamp. Designer Fabrizio Alessio has imagined to adapt William Middlebrook’s idea (the paper clip) to the world of lighting, by drawing from its elegance and simplicity: just as the paper clip staples sheets of paper, Taché’s super-light structure can staple the globe of any G125 bulb, leaving it suspended and in view. The Taché consists of two mirrored arms with an aluminium wire frame covered with a braid made from the fabric of our cables and two elegant Made in Italy wooden feet.
As well as a decorative function, the covering sleeve protects the bulb’s surface.

Component or Lamp?

Tachè can be purchased as is or completed with one of our SnakeBis plug-in lamps to create a practical, modern and creative table lamp.

One of the best Italian design project of 2021

WOODEN FEET KIT - TABLE LAMP SUPPORT

These beechwood feet made in Italy have a supporting purpose, allowing you to transform a lampshade into a table lamp base. They are equipped with double-sided adhesive tape to secure the lampshade and felt pads on the underside to ensure protection and adherence to the supporting surface.
The wooden feet are available in different finishes to allow for a pleasant harmonious effect of your installation.

KPLBL02

KPLBL03

KPLBL01

The extra idea

Transform one of our ceramic lampshades from the Materia collection into a table lamp base, add a fabric lampshade and a SnakeBis wiring kit: getting a 100% Made in Italy customized lamp it's easier with this Wooden feet kit!

CABLÒ

Here at Creative-Cables we always strive for the best, both for our customers and our planet. Cablò is a perfect representation of that: a support made from recycled plastic that adapts to any suspension and lamp holder, turning a simple accessory into a floating piece of art.

Cablò

Design by Fabrizio Alessio

CUSTOMIZE IT

Any original Creative-Cables 2x and 3x fabric cable that is at least 50cm long can become a Cablò component. Pick out your kit, available in the black or multicolour version, and use it to create your fully customisable lamp. What's more, by using different combinations you will achieve many different shapes and weaves.

MINI-UFO - REVERSIBLE WOODEN DISK FOR POSALUCE

Customizing your wooden Posaluce table lamp is easier with MINI UFO!
2 collections and numerous designs to create the unique table lamp. Perfect to decorate your room or as a gift: you just have to place the MINI-UFO over the central element of the Posaluce and add a light bulb. MINI UFOs are made of poplar wood and are reversible: you can choose which side you want to show and change it anytime you vwant! Processed and printed in Italy.

MINI-UFO READING BALLSH*T

The Reading Ballsh*t collection states ironically the most common lies told by readers, illustrated in the unmistakable style of Lepalle.it: the collection is dedicated to readers, who are known to be the finest and snobbiest liars. Quotes are available both in English and in Italian: choose from the 4 available options the one that better suits your bookworm spirit!

MINI-UFO PEMBERLYBOND

Pemberley Pond is the name of the duo which illustrated the cover of “Goodnight Stories for Rebel Girls”, one of the most successful children’s books of recent years. Thanks to their unmistakable calligraphic style, 8 quotes inspired by the pleasure of reading have become 4 double-faced MINI-UFOs: they all share a playful and naive style and are ideal in the room of baby readers, to illuminate their first books and accompany them in the pleasure of reading.

ELECTRICITY

Every electrical accessory you can think of to create your own personal design: plugs, sockets, switches, dimmers, and much more.

All certified to the strictest Italian and European safety standards.

SWITCHES DESIGNED BY ACHILLE CASTIGLIONI

The legendary 450, produced by the then VLM of Buccinasco, was born more than 50 years ago from the pencil of one of the greatest protagonists of Italian design, winner of nine Golden Compasses.

The sound of the operating ‘click’ has entered the collective imagination of every person since, as this small amazing object has been produced more than 25 million times.

But 450 isn’t the only switch designed by Achille and Pier Giacomo Castiglioni: there are two “big brothers” designed for floor and table lamps: the 661 and the 662.

ELECTRIC ACCESSORIES

Splicing connectors are essential for completing your lighting installations.
They are sold individually or in bulk boxes (10 or 100 pieces).

M0R412

M0R413

M0R415

CONNECTION KIT FOR FLUSH-MOUNTED CEILING ROSES

The connection kit for suspension with flush-mounted ceiling rose enables fast and secure connections. The plastic box acts as insulation, protecting the connectors inside and it is equipped with two cable clamps, one on each side, which ensure the safety and solidity of the cables.

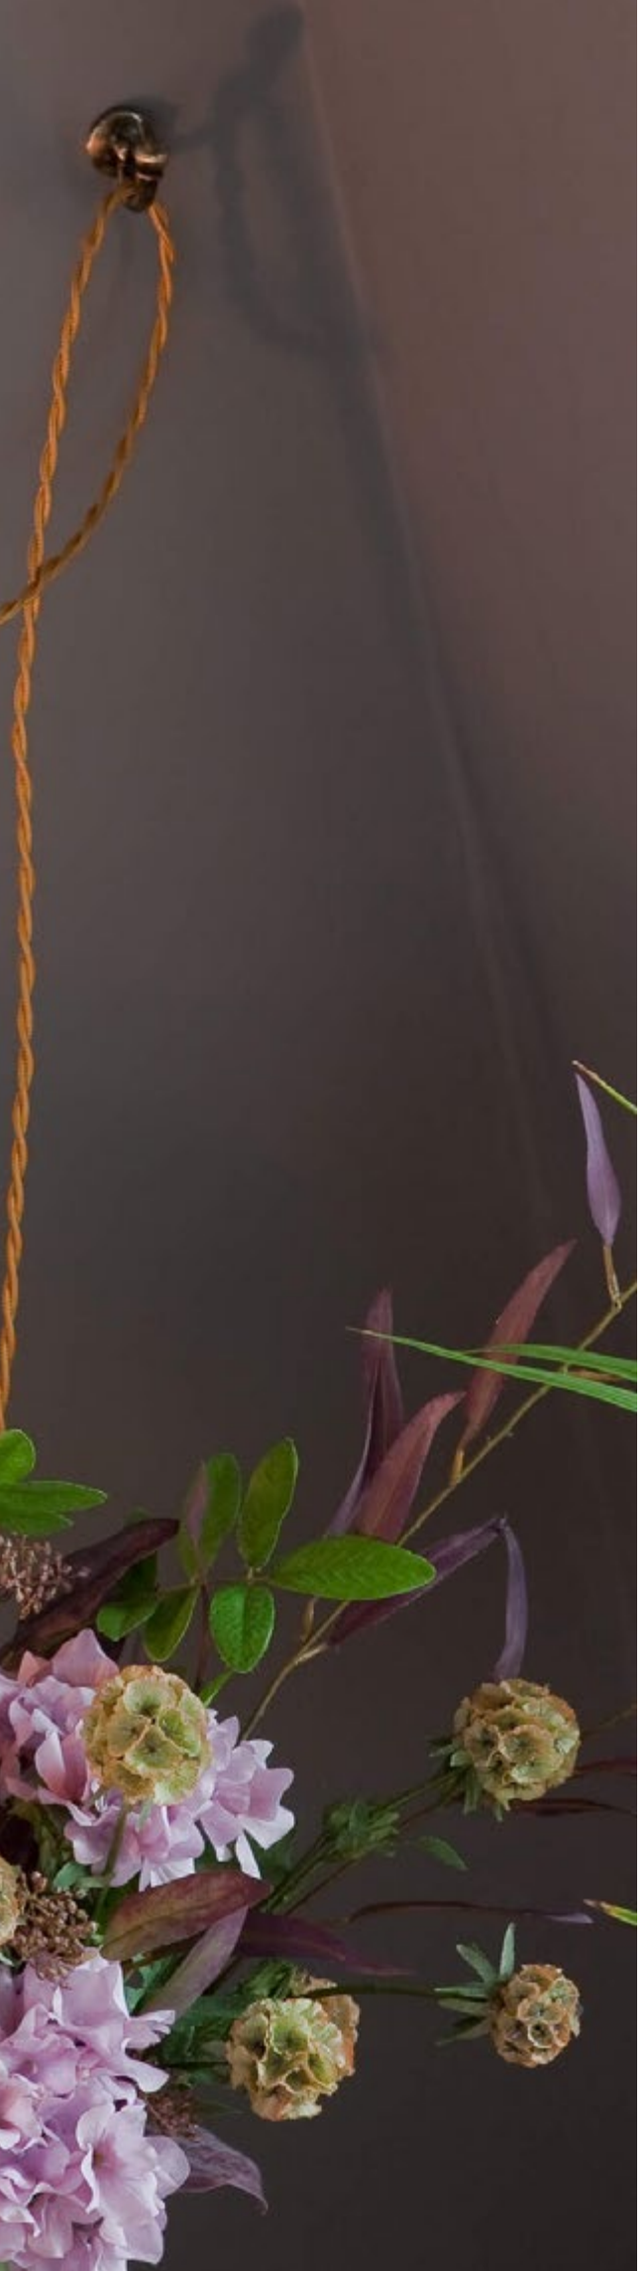
● **MORINC**

ADAPTORS FOR TRACKS

Thanks to this multiadaptor you can enrich your electrified track with some suspended lights made with our fabric cables, that can be placed and mounted where desired.

○ **KTRACB**

● **KTRACN**



LIGHTBULBS

Smoky or porcelain effect. Heart, Star, Bell or Pepper shaped. Simple filament, spiral filament or milleluci. See-through, pink, yellow, metal finish.

The list could go on but see for yourself and discover our selection of lightbulbs.

To help you understand each detail, refer to the scheme below:

WI-FI LIGHT BULBS E27

A series of classic LED bulbs, but “smart” because they can be controlled remotely via the Smart Life app installed on any smartphone or tablet and compatible with major voice assistance systems such as Google Home and Amazon Alexa. Thanks to the E27 socket you can install our WiFi bulbs on any lamp or lampholder and make it smart.

LAMPS

At Creative-Cables buying a lamp takes on a whole new meaning.Our lamps can take many shapes and styles in order to adapt to everyone's needs.

Here's how to turn your projects into reality:

Lamps designed by us
In our assortment you will find a numerous of options that we've designed for you.
You just need to choose the model, the finish and receive it directly where you need it in a few days. You can decide either to receive it already mounted or in a DIY kit!

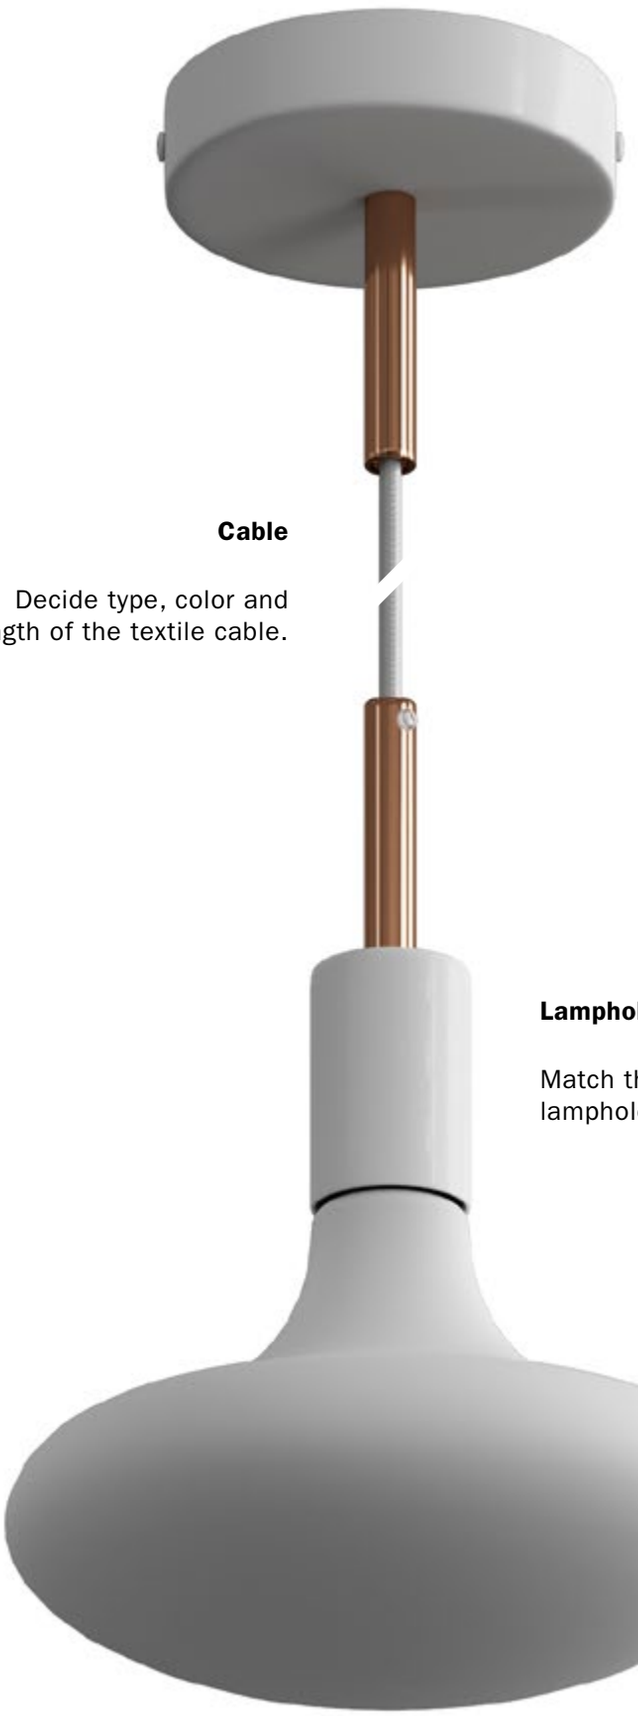
Personalize any design
Personalizing a Creative-Cables lamp means adapting any of the components to your specific needs: from changing their colors to extending its length as you may need it. Each personalization is free of charge!

Design your own lamp
Use the lamp configurators available on our website to mix and match the components and create the lamp you desire to have. You can decide either to receive it already mounted or in DIY kit!

Have a look at the following pages to get some inspiration!

And, if you need any help our Customer Service is always at your disposal.

SINGLE PENDANT



Ceiling Rose

Choose the material and the finish of the ceiling rose and which cable clamp to match it.

Cable

Decide type, color and length of the textile cable.

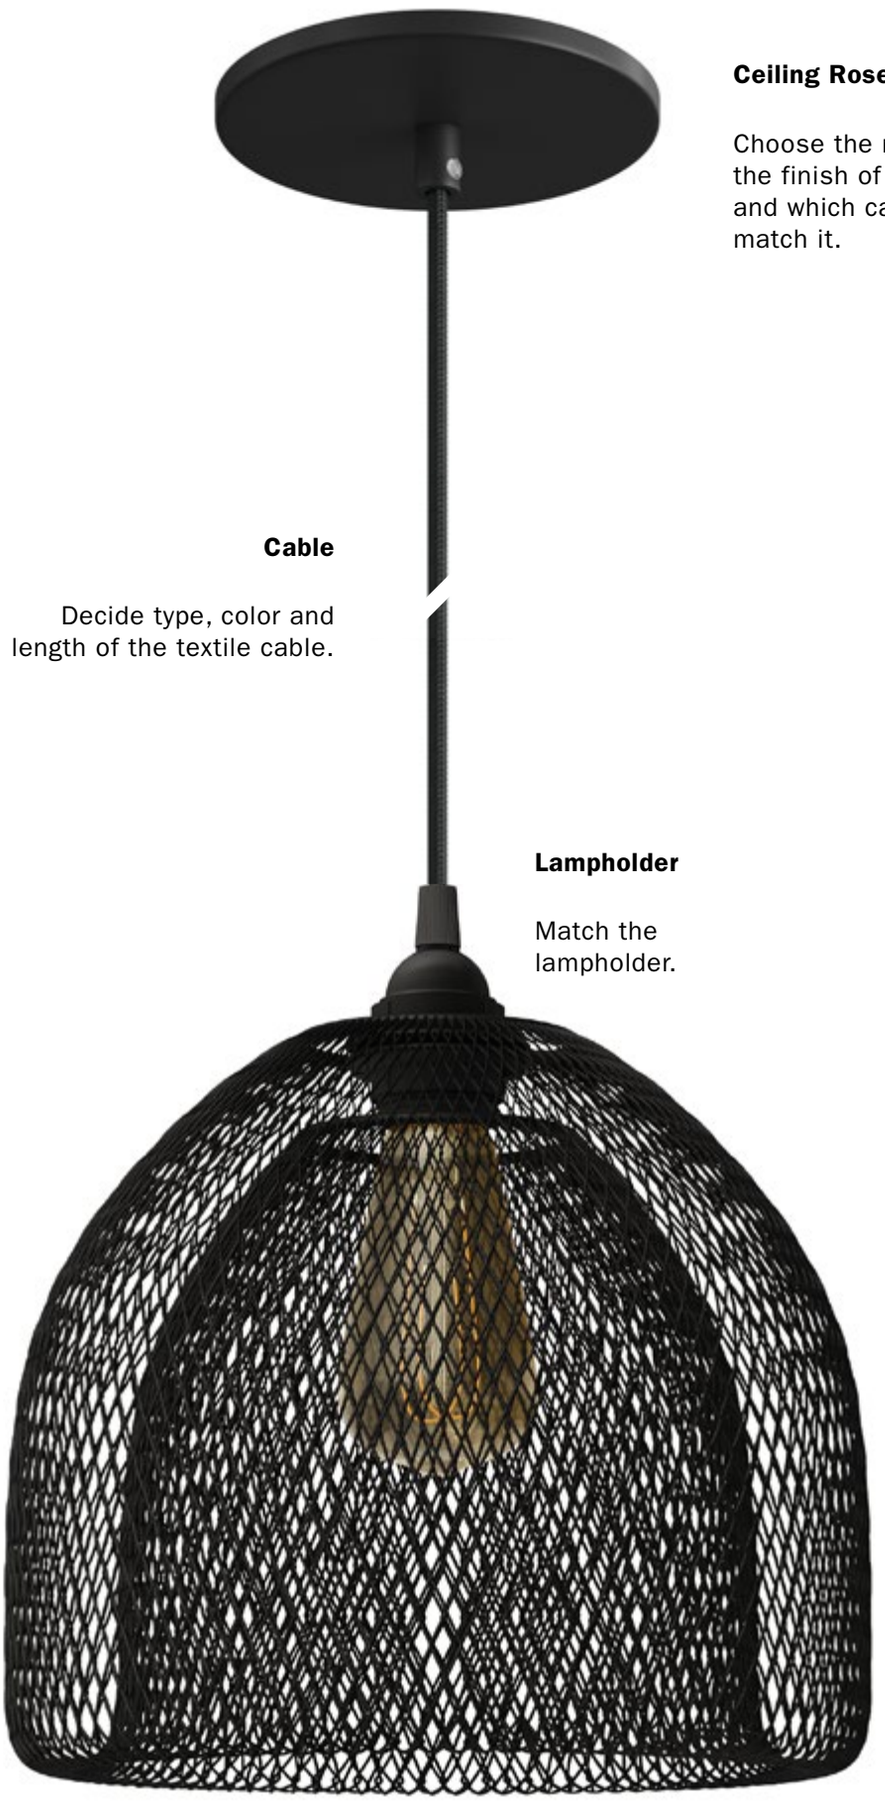
Lampholder

Match the lampholder.

Bulb

Select the light bulb.

SINGLE PENDANT WITH LAMPSHADE



Ceiling Rose

Choose the material and the finish of the ceiling rose and which cable clamp to match it.

Cable

Decide type, color and length of the textile cable.

Lampholder

Match the lampholder.

Lampshade

Select the lampshade.

Bulb

Select the light bulb.

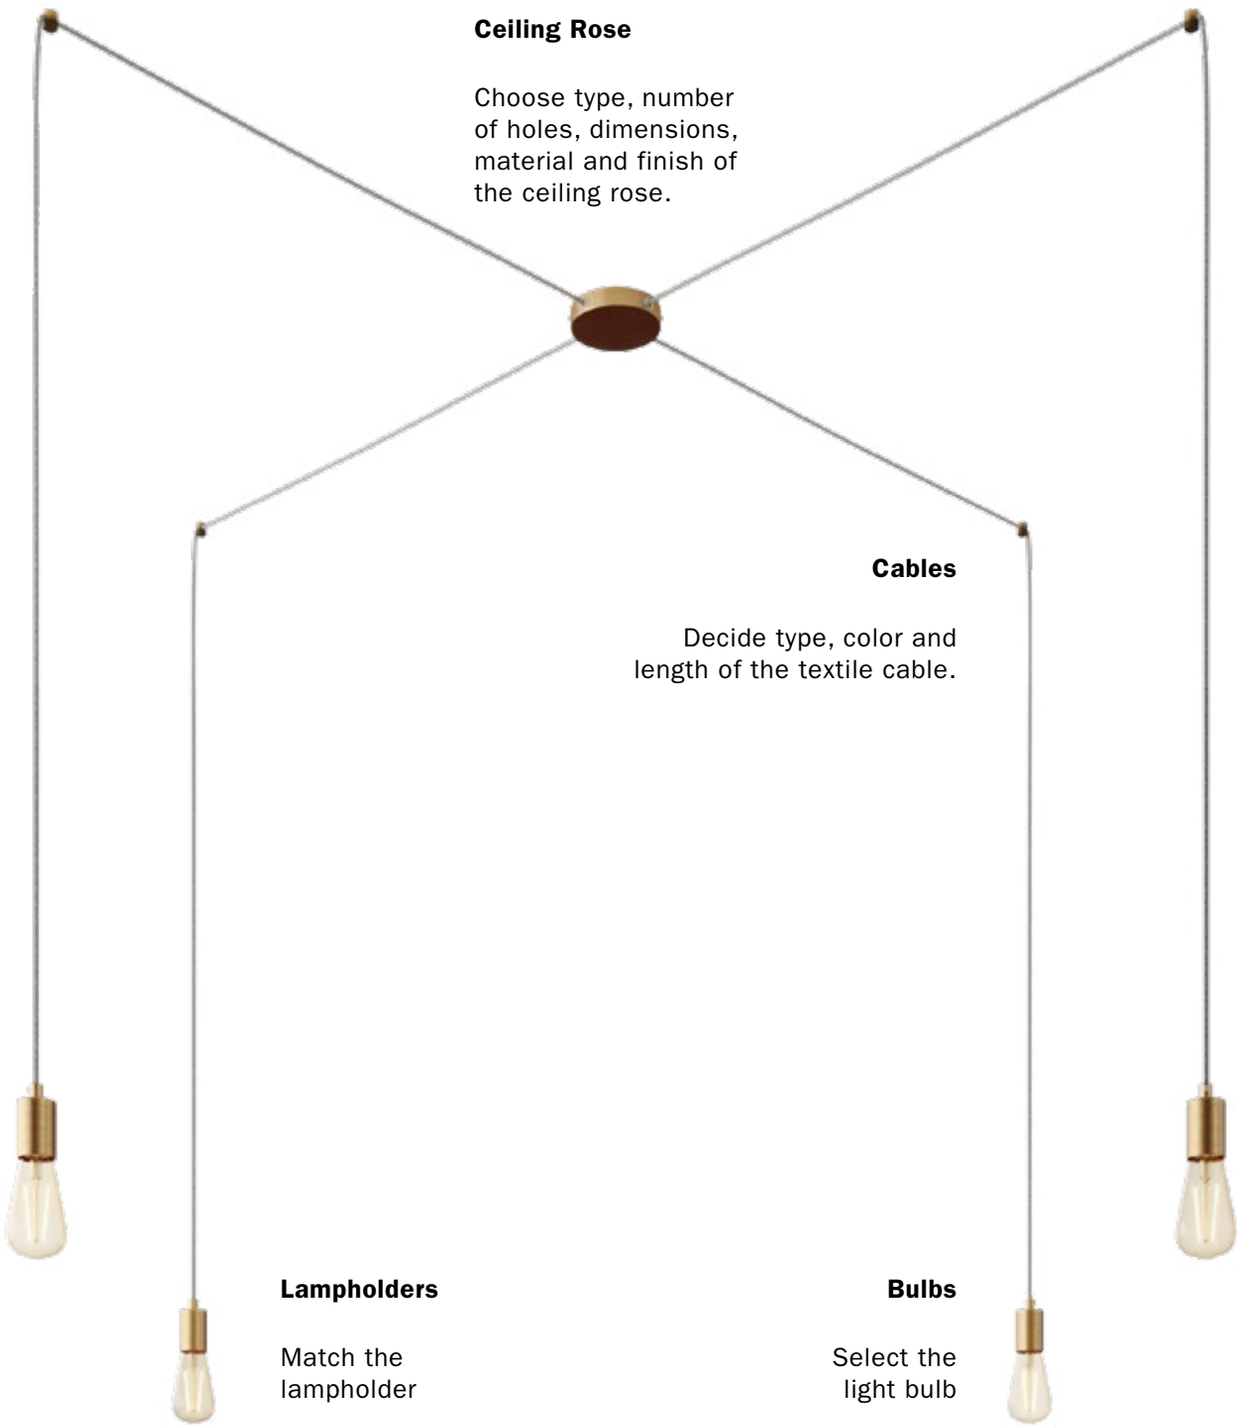
MULTI-PENDANT

Decentralizers

Add decentralizers if you need them!

Ceiling Rose

Choose type, number of holes, dimensions, material and finish of the ceiling rose.



Cables

Decide type, color and length of the textile cable.

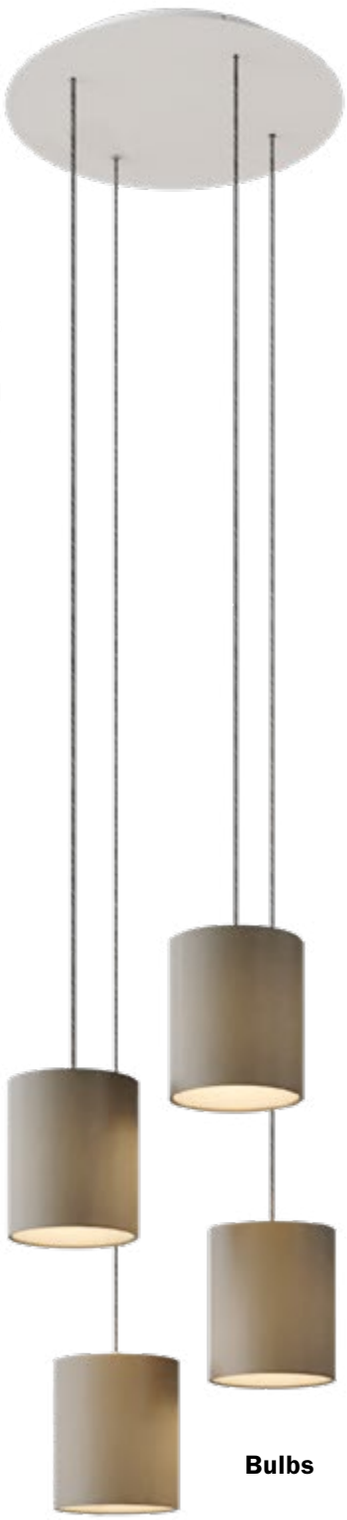
Lampholders

Match the lampholder

Bulbs

Select the light bulb

MULTI-PENDANT WITH LAMPSHADE



Ceiling Rose

Choose type, number of holes, dimensions, material and finish of the ceiling rose.

Cables

Decide type, color and length of the textile cable.

Lampholders

Match the lampholder.

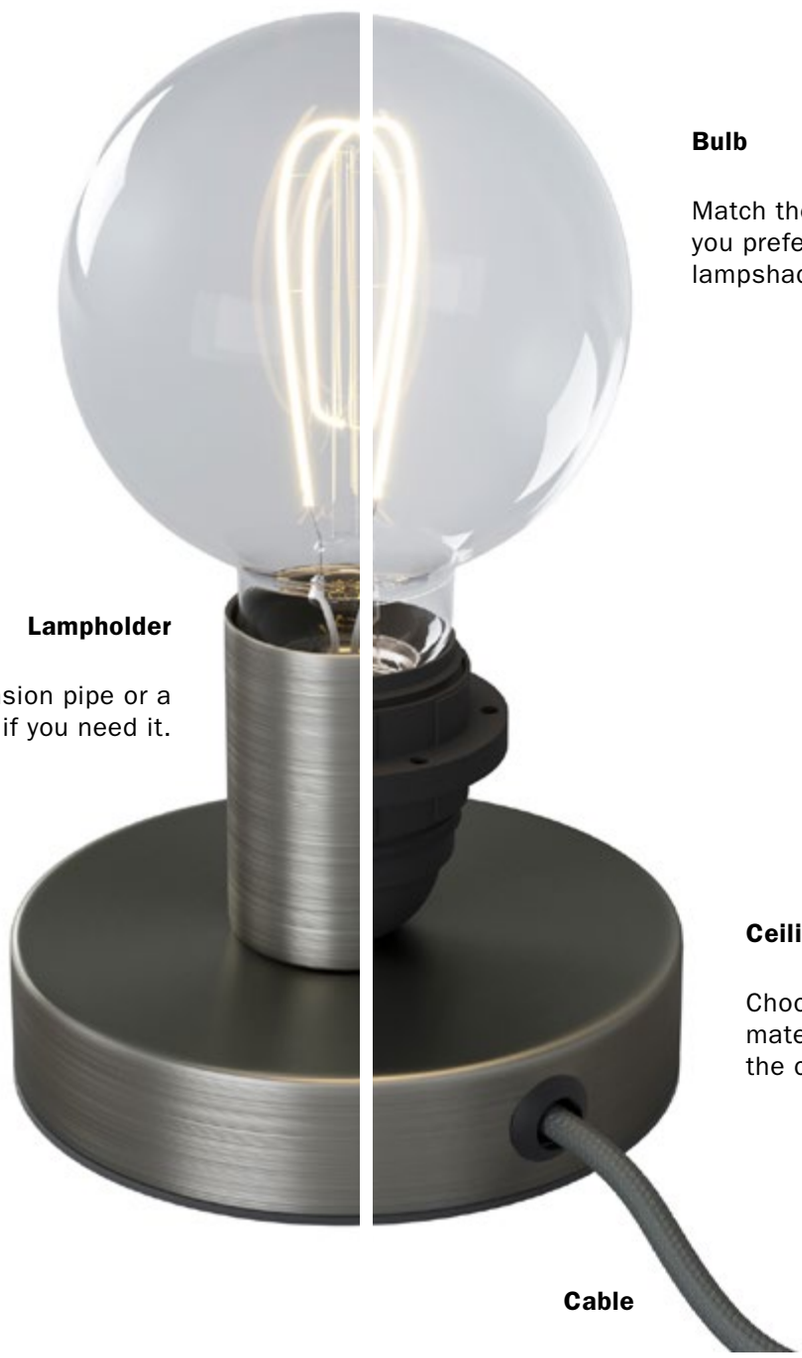
Lampshades

Select the lampshade.

Bulbs

Select the light bulb.

TABLE LAMPS



Bulb

Match the bulb that you prefer or add a lampshade.

Lampholder

Add an extension pipe or a lamphoder if you need it.

Ceiling Rose

Choose type, material and finish of the ceiling rose.

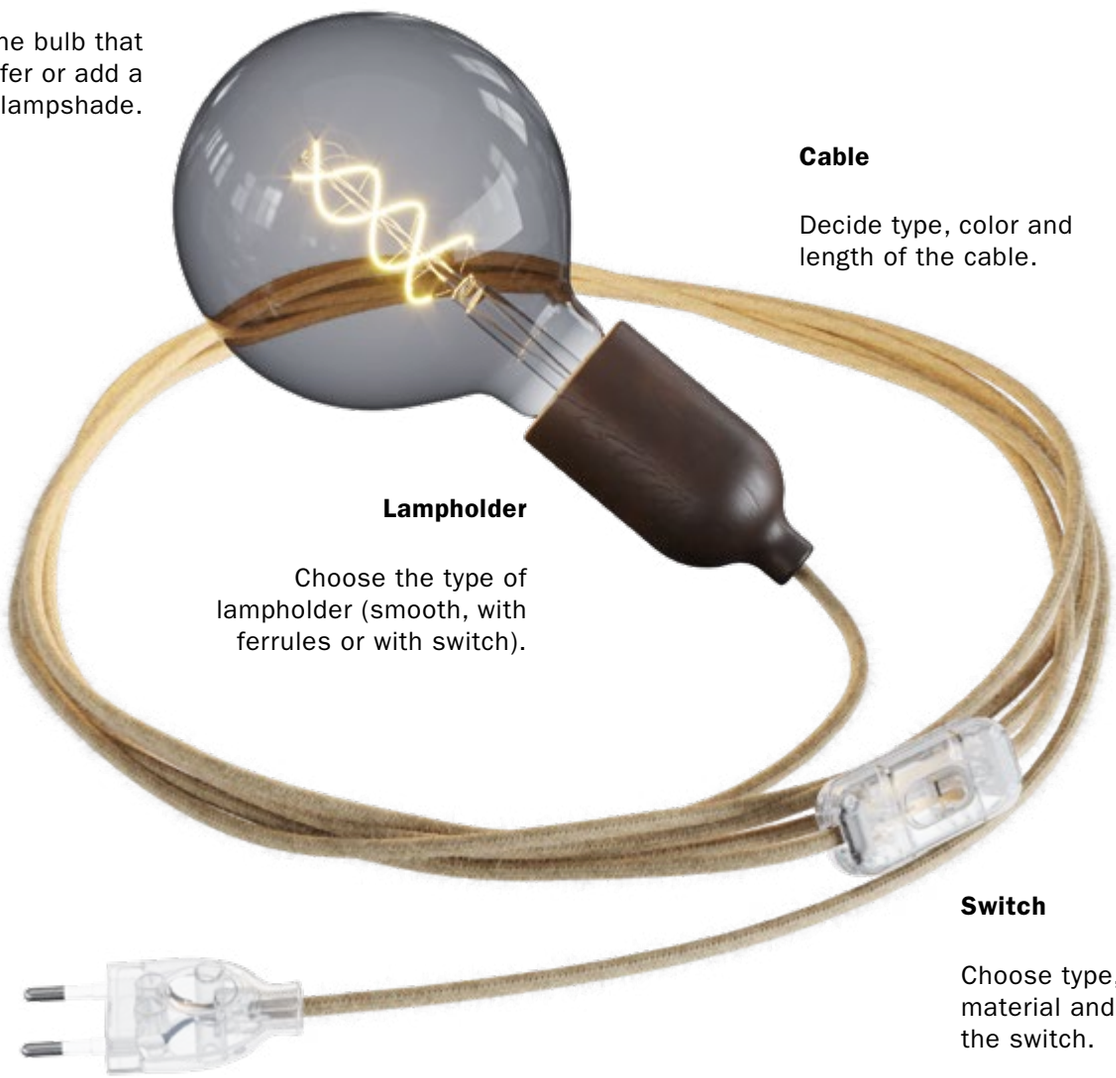
Cable

Decide type, color and length of the cable.

PLUG-IN LAMPS

Bulb

Match the bulb that you prefer or add a lampshade.



Cable

Decide type, color and length of the cable.

Lampholder

B2B SERIVCES

Choice

We offer hundreds of IMQ-HAR or UL certified cables made in Italy, complemented by a variety of lighting accessories and high-quality light bulbs that can generate thousands of combinations.
Our assortment is regularly reviewed to set or match current lighting trends.

Assembly

We can assemble and certify almost any of our products together to create your desired ready-to-use lamps that only need to be positioned and switched on. Simply nominate the components you need and contact us to receive the best quotes available complete with volume breaks for larger quantities. The more you buy, the more you save.

Customization

Anything can be possible at Creative-Cables. We like to explore your ideas and encourage your creativity: if what you want is feasible, we can make it happen. We are the producer, so ask us if we can create what you need.

Service

Our B2B website is active 24/7: In addition, each B2B customer receives dedicated support from a qualified account manager who can assist you throughout the process before, during and after the sale.

Logistics

B2B orders of any size can be prepared within 5 working days, 80% of our orders are dispatched within 48 hours.
We have mastered our efficiency to allow you to receive what you need when you need it. For special customized products or assemblies, we can advise approximate lead times to ensure you have all the information you need to plan accordingly.

Point of sale materials

We have boxed products and sample displays cases. Corners Display Panels are the solution to display a wide selection of products in your store or showroom to maximize sales by properly expressing
the idea of possibilities of light installations that can be obtained with Creatives Cables components.

CONFIGURATOR CORNER

1

The inspiration

Our architects will design an installation in your shop, with a few selected products to intrigue, help and inspire your customers.

2

Play

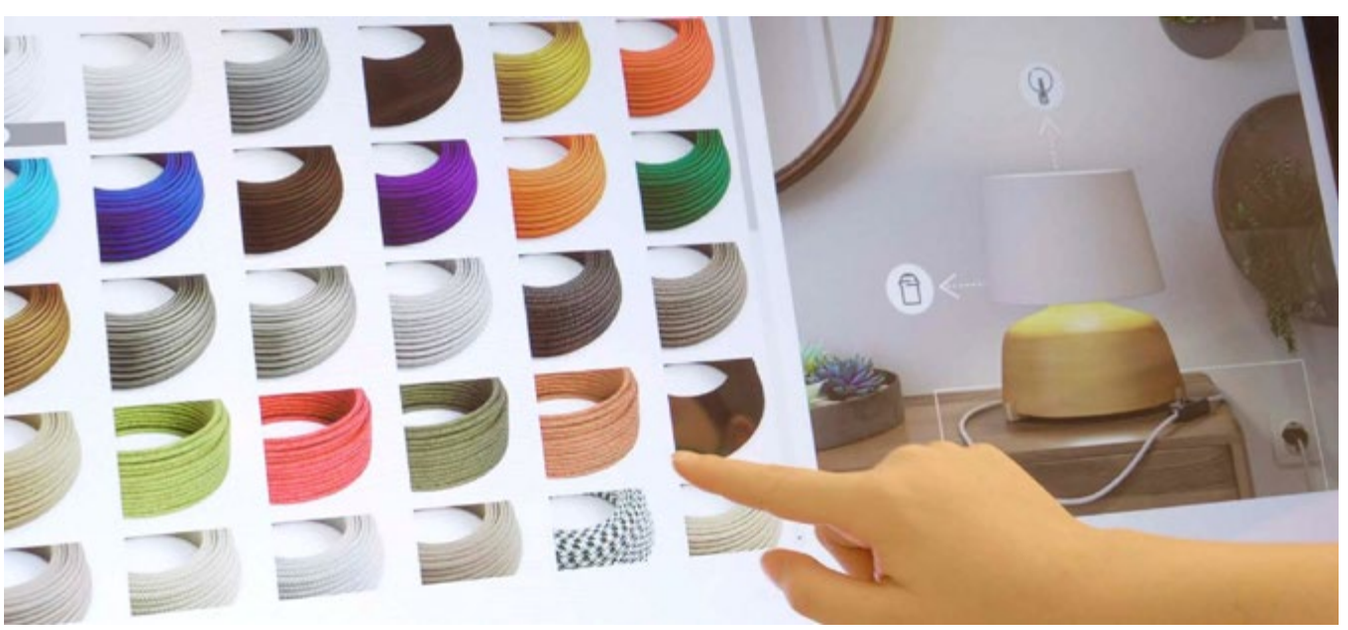
A dedicated version of the Creative-Cables Configurator for customers to use on wall-mounted touch screens, computers, tablets or smartphones, accompanied by a salesperson or on their own.
Customers create their custom-made lamp, while playing.

3

Touch

A material library (optional) organised in drawers for people to touch, check colour combinations and confirm choices.

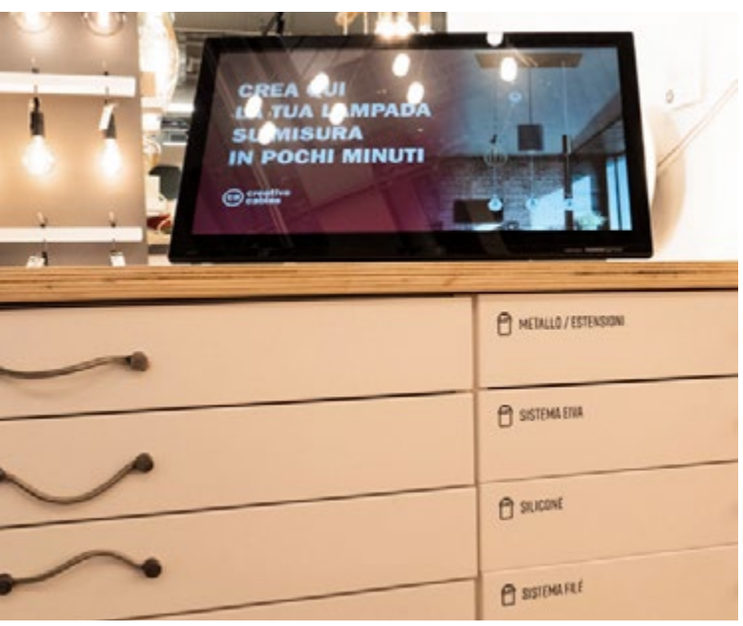
The Configurator Corner makes selling custom products a simple and automated process.
No IT integration, no catalogues to learn or consult, no codes and prices to remember.
Hundreds of thousands of possible configurations with no need to stock the product.
The selection of configurable models can be customised to match the offer of the point of sale.
The customer retail price level is also fully configurable.



Who is it dedicated to?

Configurator Corner has been thought for a selected number of Point of sale.

- Lighting shops
- Furniture shops
- Concept Stores
- Home accessory shops
- Garden centres and outdoor furniture



How much space is required?

- From 0,5 to 10 square metres
- At least one free wall

How much investment does it require?

Little, very little and in any case, it varies according to the individual project depending on the amount of material to be displayed, which device will be used for the configurator and the use of the material library.

- The installation and use of the configurator is completely **free of charge**.
- The design of the space **is handled by Creative-Cables**.

What do we offer?

- **Free of charge and customised design** of the display according to the needs and type of space.
- **Touch screen configurator**: the customer composes the lamp of their desire and receive it in the shop, with no stock commitment for the point of sale.
- **Material library**: a set of customised drawer units (optional) for the customer to “touch” the materials used in the configurator.
- An automatic order system to make the procurement process quick and easy.
- **Extra discounts** on the displayed products.
- Location on www.creative-cables.com as an **official Corner** where you can find Creative-Cables products.

EIVA MINI CREATIVE BOX - COUNTER DISPLAY UNIT

A tool that will make it easier for the customer to choose and for the retailer to sell. Despite its small size, the display unit contains all the components of our Eiva outdoor lighting system: the two Pastel or Elegant lines, the 8 silicone finishes available, the selection of Creative Cables cables for outdoor use and the innovative lamp holder patented by Creative Cables. The display unit is shipped pre-assembled, thereby avoiding the hassle of having to follow any assembly instructions. Just open the box to display it and start selling! Contact your local B2B sales team to find out how to get an EIVA Mini Creative Box with your next order.

MCB-EIVA
L 410mm, H 505mm, D 305mm

CABLE DISPLAY CASE

The eco-friendly leather suitcase for exhibiting the fabric cables samples of Creative-Cables.
An elegant and practical way to present our vast range of colours and fabrics to your customers.
Each cable is labeled and can be extracted from the case: making it a useful helper when it comes to sales, but also an attractive piece to exhibit in your shop!

SCAESPEXP01
L 45cm, H 32cm, W 6cm

REEL DISPLAY KIT

The Reel Display Kit is a simple and elegant solution for displaying Creative-Cables cables on a wall.
Each kit consists of 2 lateral leg loops with logo and 2 bars, to easily exhibit up to 8 reels of cable.
The cable reels are not included, but are supplied by default with the purchase of 50 meters of lighting cable and 25 meters of cable for string lighting cables (or relative multiples).
