Portable outdoor Snake lamp with Harbour lampshade, 5 m fabric cable, IP65 waterproof lamp holder and plug

Finish: White

Light bulb: Without bulb

Description

If you're looking for a gorgeous yet functional lighting solution for your outdoor spaces, Snake EIVA with plug and Harbour lampshade is the perfect portable lamp for you. Timeless yet contemporary, pop and chic, this lighting accessory will adapt to any space, from balconies to gardens.

Is this lamp water resistant?

Yes, the Eiva Snake with Harbour lampshade is completely water resistant and designed to withstand heavy rains and storms thanks to the lamp holder's IP65 protection degree.

How does it work?

It's a suspension lamp that connects to electricity through a Schuko plug. It comes with a 5 m cable which gives you space to hang it in any corner of your patio, terrace or garden based on your needs and preferences.

Features of the Harbour lampshade

The Harbour lampshade is made from enamelled metal and available in different colours. Its 38 cm diameter and openings around the lamp holder ensure ample light diffusion to create a striking illumination effect. The enamelled finish makes the product easier to clean and more resistant to bad weather.

To sum up, the EIVA Snake with Harbour lampshade is an elegant and contemporary waterproof lamp designed to adorn your outdoor spaces with charm and functionality.

Attention: the EIVA lamp holder was exclusively designed for glass LED light bulbs in the A60, ST64, G95 and G125 shapes, which ensure the IP65 protection degree. It is currently undergoing testing in order to expand its compatibility range.
